*December 4, 2018*

*Board of Retirement  
Kern County Employees' Retirement Association  
11125 River Run Blvd.  
Bakersfield, CA 93311*

*Dear Board Members:*

*We are pleased to submit this Actuarial Valuation and Review as of June 30, 2018. It summarizes the actuarial data used in the valuation, establishes the funding requirements for fiscal year 2019-2020 and analyzes the preceding year's experience.*

*This report was prepared in accordance with generally accepted actuarial principles and practices at the request of the Board to assist in administering the Plan. The census information on which our calculations were based was prepared by KCERA and the financial information was provided by the Retirement Association. That assistance is gratefully acknowledged.*

*The measurements shown in this actuarial valuation may not be applicable for other purposes. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period); and changes in plan provisions or applicable law.*

*The actuarial calculations were completed under the supervision of John Monroe, ASA, MAAA, Enrolled Actuary. We are members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. To the best of our knowledge, the information supplied in the actuarial valuation is complete and accurate. Further, in our opinion, the assumptions as approved by the Board are reasonably related to the experience of and the expectations for the Plan.*

*We look forward to reviewing this report at your next meeting and to answering any questions.*

*Sincerely,*

*Segal Consulting, a Member of The Segal Group, Inc.*

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

### Purpose

This report has been prepared by Segal Consulting to present a valuation of the Kern County Employees' Retirement Association as of June 30, 2018. The valuation was performed to determine whether the assets and contributions are sufficient to provide the prescribed benefits. The contribution requirements presented in this report are based on:

- The benefit provisions of the Retirement Association, as administered by KCERA;
- The characteristics of covered active members, vested terminated members, retired members and beneficiaries as of June 30, 2018, provided by KCERA;
- The assets of the Plan as of June 30, 2018, provided by KCERA;
- Economic assumptions regarding future salary increases and investment earnings adopted by the Board for the June 30, 2018 valuation; and
- Other actuarial assumptions, regarding employee terminations, retirement, death, etc adopted by the Board for the June 30, 2018 valuation.

The rates calculated in this report may be adopted by the Board for the fiscal year that extends from July 1, 2019 through June 30, 2020.

One of the general goals of an actuarial valuation is to establish contributions that fully fund the Association's liabilities, and that, as a percentage of payroll, remain as level as possible for each generation of active members. Annual actuarial valuations measure the progress toward this goal, as well as test the adequacy of the contribution rates.

In preparing this valuation, we have employed generally accepted actuarial methods and assumptions to evaluate the Association's assets, liabilities and future contribution requirements. Our calculations are based upon member data and financial information provided to us by the Association's staff. This information has not been audited by us, but it has been reviewed and found to be reasonably consistent, both internally and with prior year's information.

The contribution requirements are determined as a percentage of payroll. The Association's employer rates provide for both normal cost and a contribution to amortize any unfunded or overfunded actuarial accrued liabilities. Effective with the June 30, 2012 valuation, the Board of Retirement's funding policy is to amortize the Association's Unfunded Actuarial Accrued Liability (UAAL) as of June 30, 2011 over a declining 24.5-year period (17.5 years as of June 30, 2018). Any change in UAAL that arises due to actuarial gains or losses or due to changes in actuarial assumptions or methods at each valuation after June 30, 2011 is amortized over its own declining 18-year period. Any change in UAAL that arises due to plan amendments is amortized over its own declining 15-year period (with the exception of a change due to retirement incentives, which is amortized over its own declining period of up to 5 years).

*Reference: Pgs. 66-67*

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

*Reference: Pgs. 68-69*

A schedule of current amortization balances and payments may be found in Section 3, Exhibit I. A graphical projection of the UAAL amortization balances and payments has been included in Exhibit J.

### Effect of Gain Sharing Provisions

The 7.25% investment return assumption used in this valuation has been developed without taking into consideration any impact of the 50/50 excess earnings allocation between the retirement and Supplemental Retiree Benefits (SRBR) Reserve asset pools. This is based on our understanding that Article 5.5 of the Statute, which authorizes the allocation of 50% allocation of excess earnings to the SRBR, does not allow for the use of a different investment return for funding than is used for interest crediting. This would appear in effect to preclude the prefunding of the SRBR through the use of an assumption lower than the market earnings assumption of 7.25%.

Actuarial Standard of Practice (ASOP) No. 4 (*“Measuring Pension Obligations and Determining Pension Plan Costs or Contributions”*) was revised and adopted in December 2013. The revised ASOP states that some plan provisions, including gain sharing provisions, “may create pension obligations that are difficult to appropriately measure using traditional valuation procedures.” ASOP No. 4 now mentions that “for such plan provisions, the actuary should consider using alternative valuation procedures, such as stochastic modeling...to reflect the impact of variations in experience from year to year.”

Accordingly, we performed stochastic modeling to estimate the impact of the 50% allocation of future excess earnings to the SRBR. The results of our model indicated that the 50/50 allocation of future excess earnings would have about the same impact as an “outflow” (i.e., assets not available to fund the benefits included in this valuation) that would average approximately 0.3% of assets over time.

For informational purposes only, when we applied the results of our stochastic model to this valuation we have estimated that such an annual outflow would increase the actuarial accrued liability measured in this valuation using a 7.25% investment return assumption from \$6.40 billion to \$6.64 billion (for a difference of about \$238 million) and would increase the employer’s contribution rate by about 4.2% of payroll.

### Significant Issues in This Valuation

The following key findings were the result of this actuarial valuation:

*Reference: Pgs. 11-12*

- The market value of assets earned a return of 6.78% for the July 1, 2017 to June 30, 2018 plan year. The valuation value of assets earned a return of 7.10% for the same period due to the deferral of most of the current year investment losses and the recognition of prior investment gains and losses. This resulted in an actuarial loss when measured against the assumed rate

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

of return of 7.25% for the 2017-2018 year. This actuarial investment loss increased the average employer contribution rate by 0.07% of payroll.

*Reference: Pg. 38*

*Reference: Pg. 65*

- The ratio of the valuation value of assets to actuarial accrued liabilities increased from 63.2% to 65.1%. The Association's UAAL decreased from \$2.28 billion as of June 30, 2017 to \$2.24 billion as of June 30, 2018, due to lower than expected salary increases and other actuarial gains, offset to some extent by actual contributions less than expected and the investment loss on a valuation value of assets basis. A reconciliation of the Association's UAAL is provided in Section 3, Exhibit H.

*Reference: Pg. 35*

- The average recommended employer contribution rate decreased from 47.69% of payroll as of June 30, 2017 to 46.72% of payroll in the June 30, 2018 valuation. This decrease was the result of lower than expected individual salary increases, changes in demographics amongst tiers, and other actuarial gains, offset to some extent by lower than expected total payroll growth, actual contributions less than expected, and investment loss. A reconciliation of the average recommended employer contribution rate is provided in Section 2, Subsection D (see Chart 16).

- Last year, the Retirement Board elected to phase-in the impact of new actuarial assumptions adopted for the June 30, 2017 valuation on the UAAL contribution rate over a three-year period, beginning with the 2018-2019 fiscal year for the County General, Courts, and County Safety groups. This is the second year of the phase-in. The recommended pre-phase in contribution rates for 2018-2019 and 2019-2020 are contained in this report. The aggregate required contribution rate after reflecting the phase-in is 45.71% of payroll and is shown in a separate letter that follows this report. All other results shown in this valuation report exclude the effect of the phase-in.

*Reference: Pg. 36*

- The average recommended member contribution rate increased from 6.46% of payroll in the June 30, 2017 valuation to 6.58% of payroll in the June 30, 2018 valuation. This increase was mainly the result of changes in demographics amongst tiers. A reconciliation of the average recommended member contribution rate is provided in Section 2, Subsection D (see Chart 17).

*Reference: Pg. 22*

*Reference: Pgs. 26-27*

- Similar to last year, this valuation reflects that members of the San Joaquin Valley Unified Air Pollution Control District (SJVAPCD) in Tier I and Tier IIA pay 50% of the total Normal Cost rate. There are different District Category III Tier I and Tier IIA employer contribution rates shown in this report for SJVAPCD and also for the Buttonwillow Recreation & Park District. Those employers should not use the combined District Category III employer contribution rate and should use their own Tier I and Tier IIA specific employer rate shown in the report along with the Tier IIB employer rate.

*Reference: Pg. 6*

- As indicated in Section 2, Subsection B (see Chart 7) of this report, the total unrecognized investment loss as of June 30, 2018 is \$92 million (as compared to an unrecognized loss of \$74 million in the June 30, 2017 valuation). This deferred investment loss will be recognized in the determination of the actuarial value of assets for funding purposes over the next few years. This means that even if the plan earns the assumed rate of investment return of 7.25% per year (net of

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

investment expense) on a **market value** basis then the deferred losses will be recognized over the next few years as shown in the footnote on Chart 7.

- The unrecognized investment losses represent about 2% of the market value of assets. Unless offset by future investment gains or other favorable experience, the recognition of the \$92 million market losses is expected to have an impact on the Association's future funded ratio and the aggregate employer contribution rate. This potential impact may be illustrated as follows:

- If the deferred losses were recognized immediately in the valuation value of assets, the funded ratio would decrease from 65.1% to 63.6%.

For comparison purposes, if all the deferred losses in the June 30, 2017 valuation had been recognized immediately in the June 30, 2017 valuation, the funded percentage would have decreased from 63.2% to 62.0%.

- If the deferred losses were recognized immediately in the valuation value of assets, the aggregate employer contribution rate would increase from 46.72% to 48.02%.

For comparison purposes, if all of the deferred losses in the June 30, 2017 valuation had been recognized immediately in the June 30, 2017 valuation, the aggregate employer contribution rate would have increased from 47.69% to 48.76%.

*Reference: Pg. 64*

- During 2017-2018 there were no "excess earnings" credited to the valuation reserves or the SRBR. Also, at June 30, 2018, the COLA Contribution Reserve was zero and therefore not available to offset the 2% COLA contribution rate. Since the Contingency Reserve is still negative as of June 30, 2018, it is not excluded from the valuation value of assets per the Board's Interest Crediting Policy. A complete presentation of the Association's reserves is in Section 3, Exhibit G.
- The actuarial valuation report as of June 30, 2018 is based on financial information as of that date. Changes in the value of assets subsequent to that date, to the extent that they exist, are not reflected. Declines in asset values will increase the actuarial cost of the plan, while increases will decrease the actuarial cost of the plan.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

### New Actuarial Standard of Practice on Risk Assessment

The Actuarial Standards Board approved a new Actuarial Standard of Practice No. 51 (ASOP 51) regarding risk assessment. ASOP 51 will be effective with KCERA's June 30, 2019 actuarial valuation. ASOP 51 requires actuaries to identify risks that "may reasonably be anticipated to significantly affect the plan's future financial condition". Investment risk, asset/liability mismatch risk, interest rate risk, longevity and other demographic risks and contribution risk are also cited as examples in ASOP 51. The standard does not require the actuary to evaluate the likelihood of contributing entities to make contributions when due, nor does it require the actuary to assess the likelihood or consequences of future changes in applicable law.

The actuary's assessment can be qualitative or quantitative (e.g., based on numerical demonstrations). The actuary may use non-numerical methods for assessing risks that might take the form of commentary about potential adverse experience and the likely effect on future results. While the standard does not require that every valuation include a quantitative risk assessment, the actuary may recommend that a more detailed risk assessment be performed. When making that decision, the actuary will take into account such factors as the Plan's design, maturity, size, funded status, asset allocation, cash flow, possible insolvency and current market conditions.

In early 2019, we plan on discussing with KCERA what we would recommend be included in KCERA's risk report for the June 30, 2019 valuation.

### Impact of Future Experience on Contribution Rates

Future contribution requirements may differ from those determined in the valuation because of:

- Difference between actual experience and anticipated experience;
- Changes in actuarial assumptions or methods;
- Changes in statutory provisions; and
- Difference between the contribution rates determined by the valuation and those adopted by the Board.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

### Important Information about Actuarial Valuations

An actuarial valuation is a budgeting tool with respect to the financing of future projected obligations of a pension plan. It is an estimated forecast – the actual long-term cost of the plan will be determined by the actual benefits and expenses paid and the actual investment experience of the plan.

In order to prepare an actuarial valuation, Segal Consulting (“Segal”) relies on a number of input items. These include:

- **Plan of benefits** Plan provisions define the rules that will be used to determine benefit payments, and those rules, or the interpretation of them, may change over time. It is important to keep Segal informed with respect to plan provisions and administrative procedures, and to review the plan description in this report to confirm that Segal has correctly interpreted the plan of benefits.
- **Participant data** An actuarial valuation for a plan is based on data provided to the actuary by KCERA. Segal does not audit such data for completeness or accuracy, other than reviewing it for obvious inconsistencies compared to prior data and other information that appears unreasonable. It is important for Segal to receive the best possible data and to be informed about any known incomplete or inaccurate data.
- **Assets** This valuation is based on the market value of assets as of the valuation date, as provided by KCERA.
- **Actuarial assumptions** In preparing an actuarial valuation, Segal projects the benefits to be paid to existing plan participants for the rest of their lives and the lives of their beneficiaries. This projection requires actuarial assumptions as to the probability of death, disability, withdrawal, and retirement of each participant for each year. In addition, the benefits projected to be paid for each of those events in each future year reflect actuarial assumptions as to salary increases and cost-of-living adjustments. The projected benefits are then discounted to a present value, based on the assumed rate of return that is expected to be achieved on the plan’s assets. There is a reasonable range for each assumption used in the projection and the results may vary materially based on which assumptions are selected. It is important for any user of an actuarial valuation to understand this concept. Actuarial assumptions are periodically reviewed to ensure that future valuations reflect emerging plan experience. While future changes in actuarial assumptions may have a significant impact on the reported results, that does not mean that the previous assumptions were unreasonable.

The user of Segal’s actuarial valuation (or other actuarial calculations) should keep the following in mind:

- The valuation is prepared at the request of KCERA. Segal is not responsible for the use or misuse of its report, particularly by any other party.
- An actuarial valuation is a measurement of the plan’s assets and liabilities at a specific date. Accordingly, except where otherwise noted, Segal did not perform an analysis of the potential range of future financial measures. The actual long-term

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

cost of the plan will be determined by the actual benefits and expenses paid and the actual investment experience of the plan.

- If KCERA is aware of any event or trend that was not considered in this valuation that may materially change the results of the valuation, Segal should be advised, so that we can evaluate it.
- Segal does not provide investment, legal, accounting, or tax advice. Segal's valuation is based on our understanding of applicable guidance in these areas and of the plan's provisions, but they may be subject to alternative interpretations. The Board should look to their other advisors for expertise in these areas.

As Segal Consulting has no discretionary authority with respect to the management or assets of KCERA, it is not a fiduciary in its capacity as actuaries and consultants with respect to KCERA.

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

**A. MEMBER DATA**

The Actuarial Valuation and Review considers the number and demographic characteristics of covered members, including active members, vested terminated members, retired members and beneficiaries.

This section presents a summary of significant statistical data on these member groups.

More detailed information for this valuation year and the preceding valuation can be found in Section 3, Exhibits A, B, and C.

*A historical perspective of how the member population has changed over the past ten valuations can be seen in this chart.*

**CHART 1**  
**Member Population: 2009 – 2018**

<b>Year Ended June 30</b>	<b>Active Members</b>	<b>Vested Terminated Members<sup>(1)</sup></b>	<b>Retired Members and Beneficiaries</b>	<b>Ratio of Non-Actives to Actives</b>
2009	9,020	1,775	5,927	0.85

<sup>(1)</sup> Includes terminated members due a refund of member contributions.

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

**Active Members**

Plan costs are affected by the age, years of service and compensation of active members. In this year's valuation, there were 8,867 active members with an average age of 42.2, average years of service of 9.9 years and average projected compensation of \$65,883. The 8,728 active members in the prior valuation had an average age of 42.3, average service of 10.0 years and average projected compensation of \$65,546.

Among the active members, there were none with unknown age information.

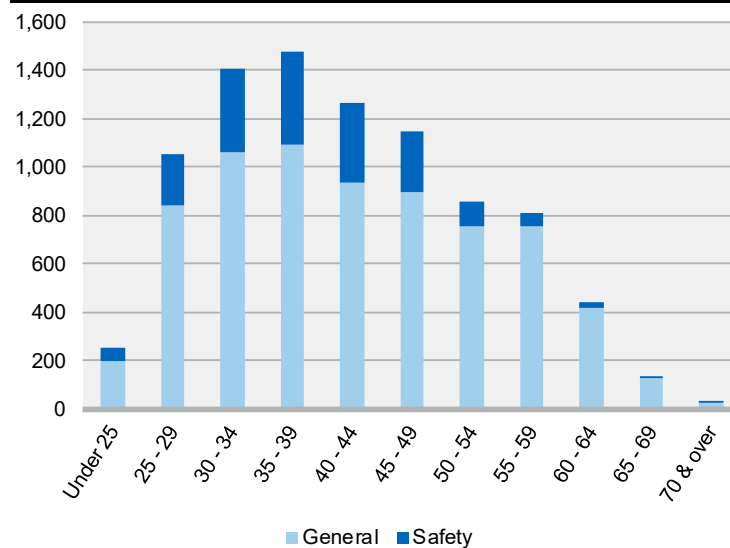

**Vested Terminated Members**

In this year's valuation, there were 2,604 members with a vested right to a deferred or immediate vested benefit or entitled to a return of their member contributions versus 2,363 in the prior valuation.

*These graphs show a distribution of active members by age and by years of service.*

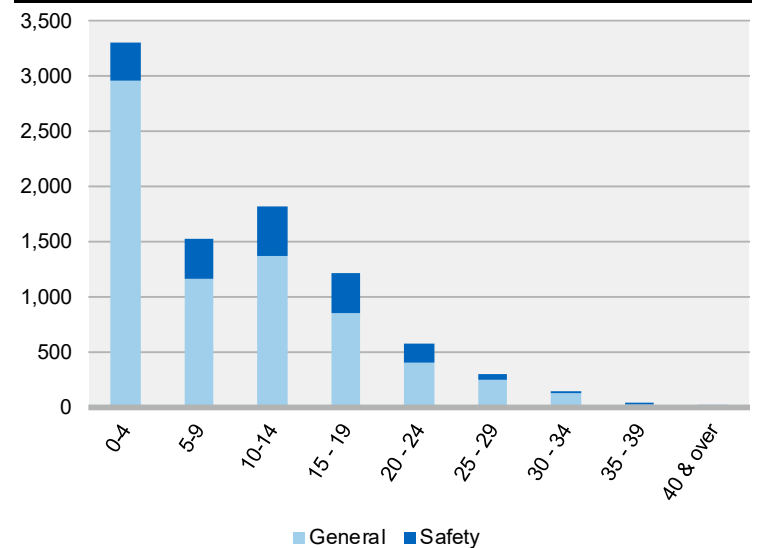

**CHART 2**

**Distribution of Active Members by Age as of June 30, 2018**

**CHART 3**

**Distribution of Active Members by Years of Service as of June 30, 2018**

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

**Retired Members and Beneficiaries**

As of June 30, 2018, 7,092 retired members and 1,209 beneficiaries were receiving total monthly benefits of \$26,942,826. For comparison, in the previous valuation, there were 6,917 retired members and 1,176 beneficiaries receiving monthly benefits of \$25,553,274. These monthly benefits exclude benefits paid from the Supplemental Retiree Benefit Reserve.

*These graphs show a distribution of the current retired members and beneficiaries based on their monthly amount and age, by type of pension.*

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

### B. FINANCIAL INFORMATION

Retirement plan funding anticipates that, over the long term, both contributions (less administrative expenses starting in 2014) and investment earnings (less investment fees) will be needed to cover benefit payments. Retirement plan assets change as a result of the net impact of these income and expense components.

Additional financial information, including a summary of these transactions for the valuation year, is presented in Section 3, Exhibits D, E and F.

*The chart depicts two components of changes in the actuarial value of assets over the last ten years. The first bar represents increases in assets due to contributions during each year while the second bar details the decreases due to benefit payments.*

**CHART 6**  
**Comparison of Contributions with Benefits for Years Ended June 30, 2009 – 2018**

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

---

It is generally considered desirable to have level and predictable plan costs from one year to the next. For this reason, the Board of Retirement has approved an asset valuation method that gradually adjusts to market value. Under this method, the full value of market fluctuations is not recognized in a single year and, as a result, the asset value and the plan costs are more stable.

The amount of the adjustment to recognize market value is treated as income, which may be positive or negative. Realized and unrealized gains and losses are treated equally and, therefore, the sale of assets has no immediate effect on the actuarial value.

The determination of the actuarial and valuation value of assets is provided on the following page.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

The chart shows the determination of the actuarial and valuation value of assets as of the valuation date.

### CHART 7

#### Determination of Actuarial and Valuation Value of Assets for Year Ended June 30, 2018

Six Month Period		Total Actual Market	Expected Market	Investment Gain	Deferred	Deferred Return
From	To	Return (net)	Return (net)	(Loss)	Factor	
1/2013	6/2013	\$113,375,851	\$118,045,356	\$(4,669,505)	0.0	\$0
7/2013	12/2013	275,580,944	122,272,452	153,308,491	0.0	0
1/2014	6/2014	207,051,913	132,732,440	74,319,473	0.1	7,431,947
7/2014	12/2014	(31,552,640)	135,927,248	(167,479,888)	0.2	(33,495,978)
1/2015	6/2015	113,483,725	134,126,222	(20,642,498)	0.3	(6,192,749)
7/2015	12/2015	(130,277,891)	137,880,456	(268,158,347)	0.4	(107,263,339)
1/2016	6/2016	102,742,734	132,508,089	(29,765,355)	0.5	(14,882,677)
7/2016	12/2016	160,552,179	135,836,079	24,716,100	0.6	14,829,660
1/2017	6/2017	266,054,594	141,194,926	124,859,668	0.7	87,401,768
7/2017	12/2017	253,352,676	148,484,992	104,867,684	0.8	83,894,147
1/2018	6/2018	14,305,836	152,145,120	(137,839,284)	0.9	<u>(124,055,356)</u>
1.	Total Deferred Return <sup>(1)</sup>					\$ (92,332,576)
2.	Market Value of Assets					4,198,862,285
3.	Preliminary Actuarial Value of Assets (Item 2 – Item 1)					4,291,194,861
4.	Corridor Around Market Value					
a.	Minimum – 50% of Market Value					2,099,431,142
b.	Maximum – 150% of Market Value					6,298,293,427
5.	a. Final Actuarial Value of Assets					4,291,194,861
b.	Ratio of Actuarial Value of Assets to Market Value of Assets (Item 5a / Item 2)					102.20%
6.	Non-valuation reserves <sup>(2)</sup>					
a.	Supplemental Retiree Benefit Reserve (SRBR) Unallocated to 0.5% COLA benefits					127,719,014
b.	COLA Contribution Reserve					<u>0</u>
c.	Subtotal					\$127,719,014
7.	Valuation Value of Assets (Item 5a – Item 6c)					<u>\$4,163,475,848</u>
(1)	Deferred returns as of June 30, 2018 to be recognized in each of the next five years:					
(a)	Amount Recognized during 2018-2019					\$ (66,456,436)
(b)	Amount Recognized during 2019-2020					(38,328,156)
(c)	Amount Recognized during 2020-2021					20,344,298
(d)	Amount Recognized during 2021-2022					5,891,647
(e)	Amount Recognized during 2022-2023					<u>(13,783,928)</u>
						\$ (92,332,576)

<sup>(2)</sup> Because the Contingency Reserve is negative as of June 30, 2018, it is not excluded from the valuation value of assets per the Board's Interest Crediting Policy.

Note: Results may not add due to rounding.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

### CHART 8

#### Allocation of Valuation Value of Assets as of June 30, 2018

The allocation of the valuation reserves among General, District and Safety is provided below:

	County General	District	County Safety	Total
Member Deposit Reserves	\$244,678,051	\$25,258,784	\$117,438,710	\$387,375,545
Employer Advance Reserves	401,996,323	43,598,148	442,448,018	888,042,489
Cost-of-Living Reserves – 2%	715,877,835	53,058,799	509,151,161	1,278,087,795
Cost-of-Living Reserves – 0.5% <sup>(1)</sup>	27,652,960	2,049,558	19,667,513	49,370,031
Retired Member Reserves	1,050,787,638 <sup>(2)</sup>	71,675,712 <sup>(2)</sup>	454,491,371	1,576,954,721
Contingency Reserve <sup>(3)</sup>	<u>(9,555,721)</u>	<u>(766,534)</u>	<u>(6,032,479)</u>	<u>(16,354,734)</u>
Total Valuation Value of Assets	\$2,431,437,086	\$194,874,467	\$1,537,164,294	\$4,163,475,848

<sup>(1)</sup> Allocated in proportion to the 2% Cost-of-Living Reserve.

<sup>(2)</sup> Allocated in proportion to the retired member and beneficiary Actuarial Accrued Liability for these groups.

<sup>(3)</sup> Allocated in proportion to the above valuation reserves (excluding Cost-of-Living Reserves – 0.5%).

Note: Results may not add due to rounding.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

The market value, actuarial value, and valuation value of assets are representations of KCERA's financial status. As investment gains and losses are gradually taken into account, the actuarial value of assets tracks the market value of assets, but with less volatility. The valuation value of assets is the actuarial value, excluding any non-valuation reserves. The valuation asset value is significant because KCERA's liabilities are compared to these assets to determine what portion, if any, remains unfunded. Amortization of the unfunded actuarial accrued liability is an important element in determining the contribution requirement.

### CHART 9

Market Value, Actuarial Value and Valuation Value of Assets as of June 30, 2008 – 2018

*This chart shows the change in market value, actuarial value and valuation value over the past eleven years.*

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

---

**C. ACTUARIAL EXPERIENCE**

To calculate the required contribution, assumptions are made about future events that affect the amount and timing of benefits to be paid and assets to be accumulated. Each year actual experience is measured against the assumptions. If overall experience is more favorable than anticipated (an actuarial gain), the contribution requirement will decrease from the previous year. On the other hand, the contribution requirement will increase if overall actuarial experience is less favorable than expected (an actuarial loss).

Taking account of experience gains or losses in one year without making a change in assumptions reflects the belief that the single year's experience was a short-term development and that, over the long term, experience will return to the original assumptions. For contribution requirements to remain stable, assumptions should approximate experience.

If assumptions are changed, the contribution requirement is adjusted to take into account a change in experience anticipated for all future years.

The total experience gain was \$27.0 million, a loss of \$5.7 million from investments, a loss of \$15.3 million from contribution experience and a gain of \$47.9 million from all other sources. The gain from all other sources was 0.7% of the actuarial accrued liability. A discussion of the major components of the actuarial experience is on the following pages.

*This chart provides a summary of the actuarial experience during the past year.*

---

**CHART 10**

**Actuarial Experience for Year Ended June 30, 2018**

---

1. Net gain/(loss) from investments on valuation value of assets <sup>(1)</sup>	\$(5,686,000)
2. Net gain/(loss) from contribution experience	(15,297,000)
3. Net gain/(loss) from other experience <sup>(2)</sup>	<u>47,948,000</u>
4. Net experience gain/(loss): (1) + (2) + (3)	\$26,965,000

---

<sup>(1)</sup> Details in Chart 11.

<sup>(2)</sup> See Section 3, Exhibit H for further details. Does not include the effect of plan or assumption changes, if any.

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

**Investment Rate of Return**

A major component of projected asset growth is the assumed rate of return. The assumed return should represent the expected long-term rate of return, based on KCERA's investment policy. For valuation purposes, the assumed rate of return on the valuation value of assets was 7.25%. The actual rate of return on the valuation value of assets for the 2017-2018 plan year was 7.10%.

Since the actual return for the year was less than the assumed return, KCERA experienced an actuarial loss on the valuation value of assets during the year ended June 30, 2018 with regard to its investments.

**CHART 11**

**Investment Experience for Year Ended June 30, 2018 – Market, Actuarial and Valuation Value of Assets**

*This chart shows the gain/(loss) due to investment experience.*

	<b>Market Value</b>	<b>Actuarial Value</b>	<b>Valuation Value</b>
1. Actual return	\$267,658,596	\$285,584,383	\$277,046,241
2. Average value of assets	3,947,049,432	4,021,456,221	3,899,751,121
3. Actual rate of return: (1) ÷ (2)	6.78%	7.10%	7.10%
4. Assumed rate of return	7.25%	7.25%	7.25%
5. Expected return: (2) x (4)	\$286,161,084	\$291,555,576	\$282,731,956
6. Actuarial gain/(loss): (1) – (5)	<u>\$(18,502,488)</u>	<u>\$(5,971,193)</u>	<u>\$(5,685,715)</u>

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

Because actuarial planning is long term, it is useful to see how the assumed investment rate of return has followed actual experience over time. The chart below shows the rate of return on an actuarial, valuation and market basis for the last ten years.

**CHART 12**  
**Investment Return – Market Value, Actuarial Value and Valuation Value: 2009 – 2018**

Year Ended June 30	Market Value Investment Return		Actuarial Value Investment Return		Valuation Value Investment Return	
	Amount	Percent	Amount	Percent	Amount	Percent
2009	\$(680,408,313)	-25.12%	\$1,904,894	0.07%	\$(3,689,033)	-0.14%
2010	287,578,945	14.24%	6,357,420	0.22%	(27,057)	0.00%
2011	499,791,014	21.74%	62,849,280	2.17%	43,965,998	1.57%
2012	17,681,865	0.63%	133,360,035	4.52%	128,187,974	4.52%
2013	315,415,541	11.29%	171,131,798	5.57%	164,826,838	5.57%
2014	482,632,857	15.57%	235,294,994	7.28%	227,040,629	7.28%
2015	81,931,170	2.30%	222,215,376	6.45%	214,895,554	6.46%
2016	(27,535,157)	-0.76%	181,835,568	5.00%	176,132,858	5.00%
2017	426,606,857	12.00%	265,683,238	7.01%	257,592,581	7.02%
2018	267,658,596	6.78%	285,584,383	7.10%	277,046,241	7.10%
Five-Year Average Return		6.92%		6.57%		6.57%
Ten-Year Average Return		5.50%		4.80%		4.71%

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

Subsection B described the actuarial asset valuation method that gradually takes into account fluctuations in the market value rate of return. The effect of this is to stabilize the actuarial rate of return, which contributes to leveling pension plan costs.

*This chart illustrates how this leveling effect has actually worked over the years 2009 - 2018.*

**CHART 13**

**Market, Actuarial and Valuation Rates of Return for Years Ended June 30, 2009 – 2018**

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

---

### Other Experience

There are other differences between the expected and the actual experience that appear when the new valuation is compared with the projections from the previous valuation.

These include:

- the extent of turnover among the participants,
- retirement experience (earlier or later than expected),
- mortality (more or fewer deaths than expected),
- the number of disability retirements,
- salary increases different than assumed, and
- COLA increases for retirees different than assumed.

The net gain from this other experience for the year ended June 30, 2018 amounted to \$47.9 million, which was 0.7% of the actuarial accrued liability. This gain is mainly the result of lower individual salary increases than expected. See Exhibit H for a detailed development of the Unfunded Actuarial Accrued Liability.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

---

### D. EMPLOYER AND MEMBER CONTRIBUTIONS

Employer contributions consist of two components:

*Normal Cost*

The annual contribution rate that, if paid annually from a member's first year of membership through the year of retirement, would accumulate to the amount necessary to fully fund the member's retirement-related benefits. Accumulation includes annual crediting of interest at the assumed investment earning rate. The contribution rate is determined as a level percentage of the member's compensation.

*Contribution to the Unfunded Actuarial Accrued Liability (UAAL)*

The annual contribution rate that, if paid annually over the UAAL amortization period, would accumulate to the amount necessary to fully fund the UAAL. Accumulation includes annual crediting of interest at the assumed investment earning rate. The contribution (or rate credit in the case of a negative UAAL) is calculated to remain level as a percentage of future active member payroll (including payroll for new members as they enter the Association) assuming a constant number of active members. In order to remain as a level percentage of payroll, amortization payments (credits) are scheduled to increase along with expected payroll at the combined annual inflation and "across the board" salary increase rate of 3.50%. Effective with the June 30, 2012 valuation, the June 30, 2011 UAAL is being amortized over a 24.5-year declining period (17.5 years as of June 30, 2018). The change in unfunded liability that arises due to actuarial gains or losses or due to changes in actuarial assumptions or methods at each valuation is amortized over its own declining 18-year period. Any change in unfunded actuarial accrued liability that arises due to plan amendments is amortized over its own declining 15-year period (with the exception of retirement incentives which are amortized over its own declining period of up to 5 years).

The UAAL contribution rates have been adjusted to account for the one-year delay between the valuation date and the date that the contribution rates become effective.

*Employer Contribution Rates*

The recommended employer contribution rates are shown in Chart 14. The current employer contribution rates are provided in Chart 15. The rates are shown for each tier/cost group and are separated into Normal Cost and UAAL components into each of these three benefit categories:

- The Basic benefits are the retirement benefits excluding all COLAs.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

---

- The COLA benefits adopted prior to the Ventura Settlement are referred to as the “2.0% COLA benefits”.
- The COLA benefits provided under the Ventura settlement are referred to as the “0.5% COLA benefits”.

These breakdowns are used for allocating employer contributions to specific reserves and, in the case of the 2% COLA contributions, providing the amounts that may be offset by the COLA Contribution Reserve.

There were no active members of West Side Recreation & Park in General Tier III as of the valuation date. For purposes of determining a Normal Cost for this tier, we have assumed that the demographic profile (e.g., entry age, composition of male versus female, etc.) of any future active members in this tier can be approximated by the data profiles of all current active members of West Side Recreation & Park.

### *Member Contributions General Tiers I and IIA, Safety Tiers I and IIA*

Articles 6 and 6.8 of the 1937 Act define the methodology to be used in the calculation of member basic contribution rates for General and Safety members, respectively. The basic contribution rate is determined as that percentage of compensation which if paid annually from a member's first year of membership through the prescribed retirement age would accumulate to the amount necessary to fund a prescribed annuity.

The prescribed annuity is equal to:

- 1/100 of one year Final Average Salary per year of service at age 55 for General Tier I members
- 1/120 of one year Final Average Salary per year of service at age 60 for General Tier IIA members
- 1/100 of one year Final Average Salary per year of service at age 50 for Safety Tier I and Safety Tier IIA members

Safety Tier I members also pay a supplemental contribution rate such that the aggregate amount of the supplemental and basic contribution rates will provide an annuity equal to 3/200 of one year Final Average Salary per year of service at age 50.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

---

Members in these non-CalPEPRA tiers do not contribute towards the cost-of-living benefits.

Effective July 11, 2015, San Joaquin Valley Unified Air Pollution Control District Tier 1 members pay 28% of the total Normal Cost rate. That percent increased to 39% effective 2016-2017 and 50% effective 2017-2018.

Effective July 8, 2017, San Joaquin Valley Unified Air Pollution Control District Tier IIA members pay 50% of the total Normal Cost rate.

### *Member Contributions General Tiers IIB and III, Safety Tier IIB*

Pursuant to Section 7522.30(a) of the Government Code, General Tier IIB, General Tier III and Safety Tier IIB members are required to contribute at least 50% of the Normal Cost rate. In addition, there are certain additional requirements that would have to be met such as requiring the new employees to pay the contribution rate of “similarly situated employees”, if it is greater. (reference: Section 7522.30(c)). We further understand that different rules may have to be applied for collectively bargained employees, non-represented, managerial or other supervisory employees. (reference: section 7522.30(e)). In preparing the Normal Cost rates in this report, we have assumed that exactly 50% of the Normal Cost would be paid by the new members and we have taken into account in this valuation only the requirements of Section 7522.30(c), but not requirements of Section 7522.30(e). Also of note is that based on our discussions with KCERA, we have used the discretion made available by Section 31620.5(a) of AB 1380 to no longer round the member contribution rates to the nearest quarter of one percent as previously required by CalPEPRA. This is consistent with established practice for the non-CalPEPRA tiers and should allow for exactly one-half of the normal cost for the CalPEPRA tiers to be paid by the employees and one-half by the employers. In addition, Section 31620.5(b) of AB 1380 also provides that the “one percent” rule under Section 7022.30(d) does not apply. This section formerly limited the circumstances under which the member rate would change.

Member contributions are accumulated at an annual interest rate adopted annually by the Board.

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

---

For some employers, benefits are integrated with Social Security. In those cases, non-General Tier III members pay two-thirds of the full rate on the first \$350 of pay each month. (The General Tier III formula, as valued, is not integrated with Social Security.)

The tables on pages 20 through 24 summarize the specific member contribution rate arrangements for each employer as they have been reflected in this valuation. For valuation purposes, the member contribution levels that are assumed to be in place are those for the fiscal year that begins one year after the valuation date. Any future changes in member contribution rates after that would be reflected in future valuations in determining the allocation of the total costs payable between the employers and the members.

*Administrative Expense*

The Board adopted an explicit administrative expense assumption of 0.90% of payroll effective with the June 30, 2014 valuation. This assumption will be reviewed as part of each regular triennial experience study.

This explicit administrative expense is allocated to both the employer and member based on the components of the total average contribution rate (before expenses) for the employer and member. This results in an administrative expense load shown in the following table:

	<b>Total Average Rate Before <u>Administrative Expense</u></b>	<b><u>Weighting</u></b>	<b><u>Total Loading</u></b>
Employer Total	45.93%	87.65%	0.79%
Member	6.47%	<u>12.35%</u>	<u>0.11%</u>
		100.00%	0.90%

Under this approach, the employer Normal Cost rate has been increased by the same percent of payroll as the member rate with the remaining employer loading allocated to the employer UAAL rate. This is done to maintain a 50/50 sharing of Normal Cost for those in PEPRA tiers. The table below shows this allocation:

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

---

**Allocation of Administrative Expense Load as % of Payroll**

Addition to Employer Basic Normal Cost Rate	0.11%
Addition to Employer Basic UAAL Rate	0.68%
Addition to Member Basic Rate	<u>0.11%</u>
Total Addition to Contribution Rate	0.90%

The administrative expense load has been added to the Basic rates for employers and members.

*Transfers*

When employees transfer from one participating employer to another KCERA participating employer, recognition needs to be made of the employee's prior service within KCERA on an equitable basis. For each employee that transfers within KCERA the funding for the employee's benefits will be determined as follows:

- The employee will be reported and funded as a vested terminated employee for the former participating employer with reciprocal benefits the same as any other vested terminated employee who moves to a reciprocal retirement system other than KCERA.
- The employee will be reported and funded as an active employee for the new participating employer but with reciprocal service credits for the prior service in KCERA for purposes of benefit eligibility and entry age. Benefit amounts will be funded only for the service provided to the new participating employer.
- Upon retirement from KCERA, the employee's total retirement benefit will be determined based on service with each KCERA participating employer and the employee's Final Average Salary.
- The entire liability for the retired employee's KCERA benefit payments will be allocated to the latest participating employer's cost group. The employee will be reported as a retired employee for the latest participating employer with the full KCERA retirement benefit amount.

*Cost Sharing Adjustments*

KCERA's Normal Cost is determined separately for each group of members that have the same benefit formula (on a prospective basis). The seven Normal Cost cost sharing groups are as follows:

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

---

- General Tier I
- General Tier IIA
- General Tier IIB
- General Tier III
- Safety Tier I
- Safety Tier IIA
- Safety Tier IIB

KCERA's UAAL is determined separately for each cost sharing group depending on the assets for that cost group. The three UAAL cost sharing groups are as follows:

- General County and Courts
- General Districts
- Safety

The tables on pages 20 through 24 contain more benefit and contribution information for each employer participating in KCERA.

*Other Adjustments*

There is a further adjustment made to the UAAL contribution rates to account for District Category IV adopting the 3% @ 60 formula on a prospective basis only. The District Category IV rates exclude the fixed portion of the UAAL contribution rates attributable to retroactive adoption of the 3% @ 60 formula as a percentage of compensation, which are as follows:

	General District Members
Basic Benefits	2.31%
2% COLA	0.47%
0.5% COLA	0.13%
Total	2.91%

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

### Summary of KCERA Employers, Benefit Formulas and Member Contribution Rates – County and Courts

Plan	Valuation Report Label	Benefit Formula	Member Contribution Code Section	Member Contribution Provides Average Annuity of:	Adopted 1997 MOU	Soc Sec Integration	Pre-Tax	5-yr Contribution Stop
General – County Tier I	County General Tier I	31676.17 (3% @ 60)	31621.8	1/100 of FAS1 at age 55	Yes	Yes	Yes	Varies <sup>1</sup>

FAS1 = 1-Year Final Average Salary

<sup>1</sup> See next page for member contribution rates by employee association and bargaining unit.

<sup>2</sup> Court employees in Tier I pay an additional 8% of the base salary for their entire career.

<sup>3</sup> Court employees in Tier I hired prior to this date pay the full member contribution rates for only the first five years of service as a result of the 2010 Memorandum of Understanding (MOU).

<sup>4</sup> Safety Tier I and Safety Tier IIA members stop paying contributions upon attaining 30 years of continuous county service.

<sup>5</sup> KCPA (Prosecutors) employee association adopted Tier IIA effective July 5, 2008.

<sup>1</sup> Tier I members hired prior to this date pay the full member contributions for only the first five years of service. These members will start paying one-sixth of their full member contributions on the “1/6th Rate Start” date, and will start paying one-third of their full member contributions on the “1/3rd Rate Start” date.

<sup>2</sup> Elected officials hired prior to this date do not pay member contributions. These members will start paying one-third of their full member contributions on the first day of the first biweekly payroll period in January 2015.

<sup>3</sup> Firefighters hired prior to this date pay 1% of their base salary after the first five years of service. These members will start paying one-sixth of their full member contributions (not to exceed 2% of base salary) on the “1/6th Rate Start” date, and will start paying one-third of their full member contributions (not to exceed 4% of base salary) on the “1/3rd Rate Start” date.

<sup>4</sup> Members hired after this date pay a uniform “Safety 3” rate for all entry ages. The uniform rate continues to be integrated with Social Security.

<sup>5</sup> Effective December 8, 2007 through September 14, 2009, this flat rate applied to KCSCA II employees.

FAS1 = 1-Year Final Average Salary

<sup>1</sup> Tier I Members hired prior to this date pay the full member contribution rates for only the first five years of service as a result of the 1997 Memorandum of Understanding (MOU).

<sup>2</sup> District Category IV adopted the 3% @ 60 Formula on a prospective basis only. Member contribution rates are the same as General Tier I.

<sup>3</sup> Buttonwillow District Tier I (District Category III) did not adopt the 1997 MOU. Members in those districts pay 50% of the full rates, regardless of hire date.

<sup>4</sup> For Kern County Water Agency (District Category I) employees hired prior to August 22, 2004, the employer picks up 100% of all member contributions.

<sup>5</sup> Effective July 11, 2015, San Joaquin Valley Unified Air Pollution Control District Tier I members pay 28% of the total Normal Cost rate. That percent increases to 39% effective 2016-2017 and 50% effective 2017-2018.

<sup>6</sup> West Side Cemetery (District Category VI) employees pay the full member contribution rates for only the first five years of service, regardless of hire date.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

The employer contribution rates as of June 30, 2018 are based on all of the data described in the previous sections, the actuarial assumptions described in Section 4, and the Plan provisions adopted at the time of preparation of the Actuarial Valuation. They include all changes affecting future costs, adopted benefit changes, actuarial gains and losses and changes in the actuarial assumptions.

### Reconciliation of Recommended Average Employer Contribution

The chart below details the changes in the recommended average employer contribution from the prior valuation to the current year's valuation.

*The chart reconciles the contribution from the prior valuation to the amount determined in this valuation.*

#### CHART 16

#### Reconciliation of Recommended Average Employer Contribution from June 30, 2017 to June 30, 2018 (Dollar Amounts in Thousands)

	Contribution Rate	Estimated Annual Dollar Cost <sup>(1)</sup>
<b>Recommended Average Employer Contribution Rate in June 30, 2017 Valuation</b>	47.69%	\$272,834
Effect of investment loss <sup>(2)</sup>	0.07%	409
Effect of lower than expected individual salary increases for actives	-0.61%	(3,563)
Effect of amortizing prior year's UAAL over a lower than expected projected total payroll	0.50%	2,921
Effect of actual contributions less than expected	0.20%	1,168
Effect of changes in demographics of members amongst tiers	-0.75%	(4,381)
Effect of other experience (gains)/losses <sup>(3)</sup>	<u>-0.38%</u>	<u>3,491</u>
<b>Total change</b>	<u>-0.97%</u>	<u>\$45</u>
<b>Recommended Average Employer Contribution Rate in June 30, 2018 Valuation<sup>(4)</sup></b>	46.72%	\$272,879

<sup>(1)</sup> Based on projected compensation for each valuation date shown.

<sup>(2)</sup> Return on the valuation value of assets of 7.10% was less than the 7.25% assumed rate of return.

<sup>(3)</sup> Other differences in actual versus expected experience. Estimated annual dollar cost also reflects the change in total projected compensation from the prior valuation.

<sup>(4)</sup> The June 30, 2017 and the June 30, 2018 contribution rates are before adjustments to phase-in over three years the UAAL contribution rate impact of new assumptions adopted for the June 30, 2017 valuation.

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

The member contribution rates as of June 30, 2018 are based on all of the data described in the previous sections, the actuarial assumptions described in Section 4, and the Plan provisions adopted at the time of preparation of the Actuarial Valuation. They include all changes affecting future costs, adopted benefit changes, actuarial gains and losses and changes in the actuarial assumptions.

**Reconciliation of Recommended Average Member Contribution Rate**

The chart below details the changes in the recommended average member contribution rate from the prior valuation to the current year's valuation.

*The chart reconciles the member contribution from the prior valuation to the amount determined in this valuation.*

**CHART 17**  
**Reconciliation of Recommended Average Member Contribution from June 30, 2017 to June 30, 2018**  
**(Dollar Amounts in Thousands)**

	Contribution Rate	Estimated Annual Dollar Cost <sup>(1)</sup>
<b>Recommended Average Member Contribution Rate in June 30, 2017 Valuation</b>	6.46%	\$36,965
Effect of changes in demographics of members amongst tiers	0.09%	526
Effect of other changes <sup>(2)</sup>	<u>0.03%</u>	<u>937</u>
<b>Total change</b>	<u>0.12%</u>	<u>\$1,463</u>
<b>Recommended Average Member Contribution Rate in June 30, 2018 Valuation</b>	6.58%	\$38,428

<sup>(1)</sup> Based on projected compensation for each valuation date shown.

<sup>(2)</sup> Other differences in actual versus expected experience. Estimated annual dollar cost also reflects the change in total projected compensation from the prior valuation.

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association

### E. FUNDED RATIO

A commonly reported piece of information regarding the Plan's financial status is the funded ratio. These ratios compare the actuarial value of assets and market value of assets to the actuarial accrued liabilities of the plan. High ratios indicate a well-funded plan with assets sufficient to cover the plan's actuarial liabilities. Lower ratios may indicate recent changes to benefit structures, funding of the plan below actuarial requirements, poor asset performance, or a variety of other changes.

The chart below depicts a history of the funded ratios for the Plan. Chart 19 on the next page shows the Plan's schedule of funding progress for the last ten years.

The funded status measures shown in this valuation are appropriate for assessing the need for or amount of future contributions. However, they are not necessarily appropriate for assessing the sufficiency of Plan assets to cover the estimated cost of settling the Plan's benefit obligations. As the chart below shows, the measures are different depending on whether the valuation or market value of assets is used.

### CHART 18

#### Funded Ratio for Plan Years Ending June 30, 2007 – 2018

<sup>(1)</sup> Excludes assets for SRBR Reserves Unallocated to 0.5% COLA benefits and COLA Contribution Reserve. Excludes assets for Contingency Reserve (unless the Contingency Reserve is negative).

<sup>(2)</sup> Excludes liabilities held for SRBR Reserves Unallocated to 0.5% COLA benefits.

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association**

**F. VOLATILITY RATIOS**

Retirement plans are subject to volatility in the level of required contributions. This volatility tends to increase as retirement plans become more mature.

The Asset Volatility Ratio (AVR), which is equal to the market value of assets divided by total payroll, provides an indication of the potential contribution volatility for any given level of investment volatility. A higher AVR indicates that the plan is subject to a greater level of contribution volatility. This is a current measure since it is based on the current level of assets.

For KCERA, the current AVR is about 7.2. This means that a 1% asset gain/(loss) (relative to the assumed investment return) translates to about 7.2% of one-year's payroll. Since KCERA amortizes actuarial gains and losses over a period of 18 years, there would be a 0.6% of payroll decrease/(increase) in the required contribution for each 1% asset gain/(loss).

The Liability Volatility Ratio (LVR), which is equal to the Actuarial Accrued Liability divided by payroll, provides an indication of the longer-term potential for contribution volatility for any given level of investment volatility. This is because, over an extended period of time, the plan's assets should track the plan's liabilities. For example, if a plan is 50% funded on a market value basis, the liability volatility ratio would be double the asset volatility ratio and the plan sponsor should expect contribution volatility to increase over time as the plan becomes better funded.

The LVR also indicates how volatile contributions will be in response to changes in the Actuarial Accrued Liability due to actual experience or to changes in actuarial assumptions.

For KCERA, the current LVR is about 11.0. This is about 53% higher than the AVR. Therefore, we would expect that contribution volatility will increase over the long term.

**CHART 20**  
**Volatility Ratios for Years Ended June 30, 2009 – 2018**

Year Ended June 30	Asset Volatility Ratios			Liability Volatility Ratios		
	General	Safety	Total	General	Safety	Total
2009	2.9	5.7	3.6	6.3	11.1	7.5
2010	3.4	6.4	4.1	6.7	11.7	7.9
2011	4.3	7.9	5.2	7.4	12.5	8.7
2012	4.3	7.7	5.2	7.7	12.8	9.0
2013	4.7	8.0	5.6	8.0	12.7	9.2
2014	5.5	9.1	6.4	8.5	13.7	9.9
2015	5.6	9.2	6.5	8.8	14.1	10.2

**SECTION 3: Supplemental Information for the Kern County Employees' Retirement Association**

**EXHIBIT F**

**Actuarial Balance Sheet**

An overview of the Plan's funding is given by an Actuarial Balance Sheet. In this approach, we first determine the amount and timing of all future payments that are anticipated to be made by the Plan for current participants. We then discount these payments at the valuation interest rate to the date of the valuation, thereby determining their present value. We refer to this present value as the "liability" of the Plan.

Second, we determine how this liability will be met. These actuarial "assets" include the net amount of assets already accumulated by the Plan, the present value of future member contributions, the present value of future employer normal cost contributions, and the present value of future employer amortization payments.

	<u>Total KCERA (\$ in 000s)</u>	
	<u>June 30, 2018</u>	<u>June 30, 2017</u>
<u>Assets</u>		
1 Total valuation value of assets	\$4,163,376	\$3,913,073
2 Present value of future contributions by members	339,485	317,892
3 Present value of future employer contributions for:		
a. entry age normal cost	670,695	697,633
b. unfunded actuarial accrued liability	2,235,338	2,278,360
4 Total current and future assets	<u>\$7,408,994</u>	<u>\$7,206,958</u>
<u>Liabilities</u>		
5 Present value of benefits for retirees and beneficiaries	\$4,093,801	\$3,912,770

**Summary of Reported Reserve Information**

	<b>Reserves</b>	
	<u>June 30, 2018</u>	<u>June 30, 2017</u>
Member Deposit Reserve – General & Courts <sup>(1)</sup>	\$244,678,051	\$225,694,947
Member Deposit Reserve – Safety <sup>(1)</sup>	117,438,710	103,224,061
Member Deposit Reserve – Special Districts <sup>(1)</sup>	25,258,784	22,672,624
Employers Advance Reserve – General & Courts <sup>(1)</sup>	401,996,323	359,448,526
Employers Advance Reserve – Safety <sup>(1)</sup>	442,448,018	388,433,921
Employers Advance Reserve – Special Districts <sup>(1)</sup>	43,598,148	38,472,411
Cost-of-Living Reserve – General & Courts <sup>(1)</sup>	715,877,835	661,092,336
Cost-of-Living Reserve – Safety <sup>(1)</sup>	509,151,161	469,812,839
Cost-of-Living Reserve – Special Districts <sup>(1)</sup>	53,058,799	48,047,077
Retired Members – General, Courts & Special Districts <sup>(1)</sup>	1,122,463,350	1,089,422,117
Retired Members – Safety <sup>(1)</sup>	454,491,371	469,256,406
Supplemental Retiree Benefit Reserve (SRBR) – 0.5% COLA <sup>(1)</sup>	49,370,031	53,850,104
Contingency Reserve <sup>(1)(3)</sup>	<u>(16,354,734)</u>	<u>(16,354,734)</u>
Valuation Reserves	\$4,163,475,848	\$3,913,072,636
Supplemental Retiree Benefit Reserve (SRBR) <sup>(2)</sup>	127,719,014	124,229,329
COLA Contribution Reserve <sup>(2)</sup>	<u>0</u>	<u>0</u>
Total Reserves	\$4,291,194,861	\$4,037,301,965
Market Stabilization Reserve <sup>(2)</sup>	<u>(92,332,576)</u>	<u>(74,406,789)</u>
Net Market Value	\$4,198,862,285	\$3,962,895,176

<sup>(1)</sup> Included in valuation value of assets.

<sup>(2)</sup> Not included in valuation value of assets.

<sup>(3)</sup> Since the Contingency Reserve is negative, it is included as part of (i.e., as an offset to) the valuation value of assets.

Note: Results may not add due to rounding.

**SECTION 3: Supplemental Information for the Kern County Employees' Retirement Association**

**EXHIBIT H**

**Development of Unfunded Actuarial Accrued Liability for Year Ended June 30, 2018**

		<b>(Amounts in Thousands)</b>
1.	Unfunded actuarial accrued liability at beginning of year	\$2,278,360
2.	Total normal cost at middle of year <sup>(1)</sup>	127,599
3.	Expected administrative expenses	5,147
4.	Expected employer and member contributions <sup>(2)</sup>	-309,799
5.	Interest for whole year on (1) and half year on (2) + (3) + (4)	<u>160,996</u>
6.	Expected unfunded actuarial accrued liability	<u>\$2,262,303</u>
7.	Actuarial (gain)/loss due to all changes:	
	(a) Investment return less than expected	\$5,686
	(b) Lower than expected individual salary increases	(47,018)
	(c) Actual contributions less than expected	15,297
	(d) Other experience	<u>(930)</u>
	(e) Total changes	<u>\$(26,965)</u>
8.	Unfunded actuarial accrued liability at end of year	<u>\$2,235,338</u>

<sup>(1)</sup> Excludes administrative expense load.

<sup>(2)</sup> Includes contributions towards administration expenses.

Note: The sum of items 7(b) and (d) equals the "net gain/(loss) from other experience" shown in Section 2, Chart 10.

EXHIBIT J (continued)  
 Projection of UAAL Balances and Payments

### SECTION 3: Supplemental Information for the Kern County Employees' Retirement Association

---

#### EXHIBIT K

#### Section 415 Limitations

---

Section 415 of the Internal Revenue Code (IRC) specifies the maximum benefits that may be paid to an individual from a defined benefit plan and the maximum amounts that may be allocated each year to an individual's account in a defined contribution plan.

A qualified pension plan may not pay benefits in excess of the Section 415 limits. The ultimate penalty for non-compliance is disqualification: active participants could be taxed on their vested benefits and the IRS may seek to tax the income earned on the plan's assets.

In particular, Section 415(b) of the IRC limits the maximum annual benefit payable at the Normal Retirement Age to a dollar amount indexed for inflation. The amount of that limit is \$220,000 for 2018 and \$225,000 for 2019. Normal Retirement Age for these purposes is age 62. These are the limits in simplified terms. They must be adjusted based on each participant's circumstances for such things as age at retirement, form of benefits chosen and after-tax contributions. Limits could also be affected by the "grandfather" election under Section 415(b)(10).

Benefits for members in the legacy tiers in excess of the limits may be paid through a qualified governmental excess plan that meets the requirements of Section 415(m).

Legal Counsel's review and interpretation of the law and regulations should be sought on any questions in this regard.

Contribution rates determined in this valuation have not been reduced for the Section 415 limitations. Actual limitations will result in gains as they occur.

**SECTION 3: Supplemental Information for the Kern County Employees' Retirement Association**

---

**EXHIBIT L**

**Definitions of Pension Terms**

---

The following list defines certain technical terms for the convenience of the reader:

**Assumptions or Actuarial Assumptions:**

The estimates on which the cost of the Plan is calculated including:

- (a) Investment return — the rate of investment yield that the Plan will earn over the long-term future;
- (b) Mortality rates — the death rates of employees and pensioners; life expectancy is based on these rates;
- (c) Retirement rates — the rate or probability of retirement at a given age; and
- (d) Turnover rates — the rates at which employees of various ages are expected to leave employment for reasons other than death, disability, or retirement.

**Normal Cost:**

The amount of contributions required to fund the cost allocated to the current year of service.

**Actuarial Accrued Liability For Actives:**

The equivalent of the accumulated normal costs allocated to the years before the valuation date.

**Actuarial Accrued Liability For Pensioners:**

The single sum value of lifetime benefits to existing pensioners. This sum takes account of life expectancies appropriate to the ages of the pensioners and the interest that the sum is expected to earn before it is entirely paid out in benefits.

**Unfunded Actuarial Accrued Liability:**

The extent to which the actuarial accrued liability of the Plan exceeds (or is exceeded by) the assets of the Plan.

**SECTION 3: Supplemental Information for the Kern County Employees' Retirement Association**

---

**Amortization of the Unfunded  
Actuarial Accrued Liability:**

Payments made over a period of years equal in value to the Plan's unfunded actuarial accrued liability.

**Investment Return:**

The rate of earnings of the Plan from its investments, including interest, dividends and capital gain and loss adjustments, computed as a percentage of the average value of the fund. For actuarial purposes, the investment return often reflects a smoothing of the market gains and losses to avoid significant swings in the value of assets from one year to the next.

## SECTION 4: Reporting Information for the Kern County Employees' Retirement Association

---

### EXHIBIT I

#### Summary of Actuarial Valuation Results

---

The valuation was made with respect to the following data supplied to us:

1. Retired members as of the valuation date (including 1,209 beneficiaries in pay status)	8,301
2. Members inactive during year ended June 30, 2018 with vested rights <sup>(1)</sup>	2,604
3. Members active during the year ended June 30, 2018	8,867

---

The actuarial factors as of the valuation date are as follows (amounts in 000s):

1. Normal cost		\$127,841
2. Present value of future benefits		7,408,994
3. Present value of future normal costs		1,010,180
4. Actuarial accrued liability <sup>(2)</sup>		6,398,814
Retired members and beneficiaries	\$4,093,801	
Inactive members with vested rights <sup>(1)</sup>	194,674	
Active members	2,110,339	
5. Valuation value of assets <sup>(3)</sup> (\$4,198,862 at market value as reported by Retirement Association)		4,163,476
6. Unfunded actuarial accrued liability		\$2,235,338

---

<sup>(1)</sup> Includes terminated members due a refund of member contributions.

<sup>(2)</sup> Excludes liabilities held for SRBR Reserves Unallocated to 0.5% COLA benefits.

<sup>(3)</sup> Excludes assets for SRBR Reserves Unallocated to 0.5% COLA benefits and COLA Contribution Reserve. Excludes assets for Contingency Reserve (unless the Contingency Reserve is negative).

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**EXHIBIT I (continued)**

**Summary of Actuarial Valuation Results**

---

The determination of the recommended average employer contribution is as follows  
(amounts in 000s):

	<b>Dollar Amount</b>	<b>% of Payroll</b>
1. Total normal cost	\$127,841	21.89%
2. Expected employee contributions	<u>-38,428</u>	<u>-6.58%</u>
3. Employer normal cost: (1) + (2)	\$89,413	15.31%
4. Amortization of unfunded actuarial accrued liability	<u>183,466</u>	<u>31.41%</u>
5. Total recommended average employer contribution: (3) + (4)	\$272,879	46.72%
6. Projected compensation	\$584,180	

---

*Note: The June 30, 2018 contribution rates are before adjustments to phase-in over three years the UAAL contribution rate impact of new assumptions adopted for the June 30, 2017 valuation.*

## SECTION 4: Reporting Information for the Kern County Employees' Retirement Association

---

### EXHIBIT II

#### Actuarial Assumptions and Methods

---

<b>Rationale for Assumptions:</b>	The information and analysis used in selecting each assumption that has a significant effect on this actuarial valuation is shown in the July 1, 2013 through June 30, 2016 Actuarial Experience Study dated June 21, 2017.
<b><u>Economic Assumptions</u></b>	
<b>Net Investment Return:</b>	7.25%, net of investment expenses.
<b>Administrative Expenses:</b>	0.90% of payroll allocated to both the employer and the member based on the components of the total average contribution rate (before expenses) for the employer and the member.
<b>Employee Contribution Crediting Rate:</b>	7.25%, compounded semi-annually.
<b>Consumer Price Index:</b>	Increase of 3.00% per year; retiree COLA increases due to CPI are assumed to be 2.50% per year.
<b>Payroll Growth:</b>	Inflation of 3.00% per year plus “across the board” real salary increases of 0.50% per year.
<b>Increase in Internal Revenue Code Section 401(a)(17) Compensation Limit:</b>	Increase of 3.00% per year from the valuation date.
<b>Increase in Section 7522.10 Compensation Limit:</b>	Increase of 3.00% per year from the valuation date.

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**Individual Salary Increases:**

<b>Annual Rate of Compensation Increase</b>		
Inflation: 3.00% per year; plus "across the board" salary increases of 0.50% per year; plus the following promotional and merit increases:		
<b>Years of Service</b>	<b>General</b>	<b>Safety</b>
Less than 1	5.50%	9.00%
1	4.00	6.50
2	3.50	5.50
3	3.00	4.25
4	2.50	3.75
5	2.25	3.25
6	2.00	3.00
7	1.50	2.50
8	1.25	1.75
9	1.00	1.50
10	0.90	1.25
11	0.80	1.00
12	0.70	0.90
13	0.60	0.85
14	0.50	0.80
15	0.50	0.75
16	0.50	0.70
17	0.50	0.65
18	0.50	0.60
19	0.50	0.55
20 & Over	0.50	0.50

*Note: The promotional and merit increases are added to the sum of the inflationary and "across the board" increases.*

## SECTION 4: Reporting Information for the Kern County Employees' Retirement Association

---

### Demographic Assumptions

#### **Mortality Rates:**

##### *Healthy:*

For General Members: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table set forward one year for males and set forward two years for females projected generationally with the two-dimensional MP-2016 projection scale.

For Safety Members: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table set back one year for males and females projected generationally with the two-dimensional MP-2016 projection scale.

##### *Disabled:*

For General Members: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table set forward seven years for males and set forward eight years for females projected generationally with the two-dimensional MP-2016 projection scale.

For Safety Members: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table set forward three years for males and females projected generationally with the two-dimensional MP-2016 projection scale.

##### *Beneficiaries:*

Beneficiaries are assumed to have the same mortality as a General Member of the opposite sex who is receiving a service (non-disability) retirement.

The RP-2014 mortality tables and adjustments as shown above reflect the mortality experience as of the measurement date. The generational projection is a provision for future mortality improvement.

##### *Member Contribution Rates:*

For General Members: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table set forward one year for males and set forward two years for females, projected to 2034 with the two-dimensional MP-2016 projection scale, weighted 30% male and 70% female.

For Safety Members: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table set back one year for males and females, projected to 2034 with the two-dimensional MP-2016 projection scale, weighted 80% male and 20% female.

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**Pre-Retirement Mortality Rates:** For General and Safety Members: Headcount-Weighted RP-2014 Employee Mortality Table times 80%, projected generationally with the two-dimensional MP-2016 projection scale.

**Termination Rates Before Retirement:**

Age	Rate (%) Mortality			
	General		Safety	
	Male	Female	Male	Female
25	0.05	0.02	0.05	0.02
30	0.05	0.02	0.05	0.02
35	0.05	0.03	0.05	0.03
40	0.06	0.04	0.06	0.04
45	0.10	0.07	0.10	0.07
50	0.17	0.11	0.17	0.11
55	0.27	0.17	0.27	0.17
60	0.45	0.24	0.45	0.24
65	0.78	0.36	0.78	0.36

*All pre-retirement deaths are assumed to be non-service connected. Note that generational projections beyond the base year (2014) are not reflected in the above mortality tables.*

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**Termination Rates Before Retirement (continued):**

<b>Age</b>	<b>Rate (%) Disability</b>	
	<b>General<sup>(1)</sup></b>	<b>Safety<sup>(2)</sup></b>
20	0.02	0.05
25	0.03	0.07
30	0.04	0.12
35	0.08	0.24
40	0.11	0.36
45	0.17	0.46
50	0.23	1.10
55	0.28	2.55
60	0.36	3.70
65	0.40	4.00
70	0.00	0.00

<sup>(1)</sup> 50% of General disabilities are assumed to be service connected (duty) disabilities and the other 50% are assumed to be non-service connected (ordinary) disabilities.

<sup>(2)</sup> 90% of Safety disabilities are assumed to be service connected (duty) disabilities and the other 10% are assumed to be non-service connected (ordinary) disabilities.

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

**Termination Rates Before Retirement (continued):**

Years of Service	Rate (%) Withdrawal <sup>(1)</sup>	
	General	Safety
Less Than 1	17.00	8.00

#### SECTION 4: Reporting Information for the Kern County Employees' Retirement Association

---

**Retirement Age and Benefit for Terminated Vested Members:**

For current and future terminated vested members, retirement age assumptions are as follows:

General Age: 57  
Safety Age: 53

We assume that 50% of future General and 55% of future Safety terminated vested members will continue to work for a reciprocal employer. For reciprocal members, we assume 4.00% compensation increases per annum.

---

**Future Benefit Accruals:**

1.0 year of service per year.

**Unknown Data for Members:**

Same as those exhibited by members with similar known characteristics. If not specified, members are assumed to be male.

**Definition of Active Members:**

All active members of KCERA as of the valuation date.

**Form of Payment:**

All members are assumed to elect the unmodified option at retirement.

**Percent Married:**

75% of male members and 60% of female members are assumed to be married at pre-retirement death or retirement. There is no explicit assumption for children's benefits.

**Age of Spouse:**

Male retirees are 3 years older than their spouses, and female retirees are 2 years younger than their spouses.

## SECTION 4: Reporting Information for the Kern County Employees' Retirement Association

---

### Actuarial Methods

- Actuarial Cost Method:** Entry Age Actuarial Cost Method. Entry Age is the age on the valuation date minus years of service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are based on costs allocated as a level percentage of compensation, as if the current benefit formulas for each individual have always been in effect (i.e., “replacement life within a tier”).
- Actuarial Value of Assets:** Market value of assets (MVA) less unrecognized returns in each of the last nine semi-annual accounting periods. Unrecognized returns are equal to the difference between the actual market return and the expected return on the market value, and are recognized semi-annually over a five-year period. The actuarial value of assets (AVA) is limited by a 50% corridor; the AVA cannot be less than 50% of MVA, nor greater than 150% of MVA.
- Valuation Value of Assets:** The Actuarial Value of Assets reduced by the value of the non-valuation reserves (excluding the Contingency Reserve if it is negative).
- Amortization Policy:** The UAAL, (i.e., the difference between the Actuarial Accrued Liability and the Valuation Value of Assets), as of June 30, 2011 shall be amortized separately from any future changes in UAAL over a period of 24.5 years from June 30, 2011.
- Any new UAAL as a result of actuarial gains or losses identified in the annual valuation as of June 30 will be amortized over a period of 18 years.
- Any new UAAL as a result of change in actuarial assumptions or methods will be amortized over a period of 18 years.
- Unless an alternative amortization period is recommended by the Actuary and accepted by the Board based on the results of an actuarial analysis:
- a. with the exception noted in b., below, the change in UAAL as a result of any plan amendments will be amortized over a period of 15 years or less;

#### SECTION 4: Reporting Information for the Kern County Employees' Retirement Association

---

- b. the increase in UAAL resulting from a temporary retirement incentive, including the impact of benefits resulting from additional service permitted in Section 31641.04 of the 1937 CERL (Golden Handshake), will be funded over a period of up to 5 years. For Golden Handshakes, the employer has the choice of two methods:
  - i. Payment in full for the UAAL attributable to the Golden Handshake in the first month of the fiscal year following the fiscal year in which the Golden Handshake was granted.
  - ii. Payment according to a five-year amortization period which will be invoiced (payable in 30 days) to the employer in the first month of the fiscal year following the fiscal year in which the Golden Handshake was granted. The amortization schedule will be based upon the valuation interest rate used in the most recently completed valuation at the time that the amortization schedule is created. The employer may complete payment of the Golden Handshake at any time during the five-year amortization period.

If the amortization method is used, then the outstanding balance will generally be recorded as a receivable asset to be included with the Actuarial Value of Assets. All Golden Handshakes provided by an employer during any fiscal year will be bundled together and will be invoiced in one transaction in the first month following the fiscal year in which the Golden Handshakes were granted.

UAAL shall be amortized over “closed” amortization periods so that the amortization period for each layer decreases by one year with each actuarial valuation.

UAAL shall be amortized as a level percentage of payroll so that the amortization amount in each year during the amortization period shall be expected to be a level percentage of covered payroll, taking into consideration the current assumption for general payroll increase.

#### **SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

If an overfunding or “surplus” exists (i.e., the Valuation Value of Assets exceeds the Actuarial Accrued Liability, so that the total of all UAAL amortization layers becomes negative), such surplus and any subsequent surpluses will be amortized over an “open” amortization period of 30 years. Any prior UAAL amortization layers will be considered fully amortized, and any subsequent UAAL will be amortized over 18 years as the first of a new series of amortization layers.

These amortization policy components will apply separately to each of KCERA's UAAL cost sharing groups.

---

#### **Changes in Actuarial Assumptions and Methods:**

There have been no changes in actuarial assumptions or methods since the previous valuation.

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**EXHIBIT III**

**Summary of Plan Provisions**

---

This exhibit summarizes the major provisions of the KCERA included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

---

**Membership Eligibility:**

All permanent employees of Kern County or participating Special Districts scheduled to work 50% or more of the required regular standard hours are eligible to become a member of the Retirement Association subject to classification below:

*General Tier I*

All General members hired by the County prior to October 27, 2007 (prior to July 5, 2008 for Prosecutors), hired by North of the River Sanitation District prior to October 29, 2007, hired by the Kern County Water Agency prior to January 1, 2010, hired by Berrenda Mesa Water District prior to January 12, 2010, hired by San Joaquin Valley Unified Air Pollution Control District prior to July 31, 2012, hired by West Side Mosquito Abatement District prior to November 15, 2012, hired by Kern Mosquito & Vector Control District prior to December 12, 2012, hired by Inyokern Community Services District prior to December 13, 2012, hired by Buttonwillow Recreation & Park District or East Kern Cemetery District prior to December 17, 2012, hired by West Side Cemetery District prior to December 18, 2012, hired by Shafter Recreation & Park District prior to December 19, 2012, or hired by the Courts prior to March 12, 2011.

*General Tier IIA*

All General members hired by the County on or after October 27, 2007, hired by North of the River Sanitation District on or after October 29, 2007, hired by the Kern County Water Agency on or after January 1, 2010, hired by Berrenda Mesa Water District on or after January 12, 2010, hired by San Joaquin Valley Unified Air Pollution Control District on or after July 31, 2012, hired by West Side Mosquito Abatement District on or after November 15, 2012, hired by Kern Mosquito & Vector Control District on or after December 12, 2012, hired by Inyokern Community Services District on or after December 13, 2012, hired by Buttonwillow Recreation & Park District or East Kern Cemetery District on or after December 17, 2012, hired by West Side Cemetery District on or after December 18, 2012, hired by Shafter

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

	Recreation & Park District on or after December 19, 2012, or hired by the Courts on or after March 12, 2011; and hired prior to January 1, 2013.
<i>General Tier IIB</i>	All General members hired by the County or districts (other than West Side Recreation & Park) on or after January 1, 2013.
<i>General Tier III</i>	All General members hired by West Side Recreation & Park on or after January 1, 2013.
<i>Safety Tier I</i>	All members employed in active law enforcement, active fire suppression, probation, detention or criminal investigation hired prior to March 27, 2012.
<i>Safety Tier IIA</i>	All members employed in active law enforcement, active fire suppression, probation, detention or criminal investigation hired on or after March 27, 2012 and prior to January 1, 2013.
<i>Safety Tier IIB</i>	All member employee in active law enforcement, active fire suppression, probation, detention or criminal investigation hired on or after January 1, 2013.
<hr/>	
<b>Final Compensation for Benefit Determination:</b>	
<i>General Tiers I and IIA, Safety Tiers I and IIA</i>	Highest consecutive twelve months of compensation earnable (§31462.1) (FAS1).
<i>General Tier IIB, General Tier III and Safety Tier IIB</i>	Highest consecutive thirty-six months of pensionable compensation (§7522.32 and §7522.34) (FAS3).
<hr/>	
<b>Compensation Limit:</b>	
<i>Non-General Tier III</i>	For members with membership dates on or after July 1, 1996, Compensation Earnable is limited to Internal Revenue Code Section 401(a)(17). The limit for the Plan Year beginning July 1, 2018 is \$275,000. The limit is indexed for inflation on an annual basis.
<i>General Tier III</i>	Pensionable Compensation is limited to \$121,388 for 2018 (\$145,666, if not enrolled in Social Security). The limit is indexed for inflation on an annual basis.
<hr/>	
<b>Service:</b>	Years of service. (Yrs)

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**Service Retirement Eligibility:**

<i>General Tiers I, IIA and IIB</i>	Age 50 with 10 years of service credit, or age 70 regardless of service credit, or after 30 years of service credit, regardless of age (§31672).
<i>General Tier III</i>	Age 52 with 5 years of service (§7522.20(a)).
<i>Safety Tiers I, IIA and IIB</i>	Age 50 with 10 years of service credit, or age 70 regardless of service credit, or after 20 years of service credit, regardless of age (§31663.25).

---

**Benefit Formula:**

	<b>Retirement Age</b>	<b>Benefit Formula<sup>(1)</sup></b>
<i>General Tier I (§31676.17)</i>	50	$(2.00\% \times \text{FAS1} - 1/3\% \times 2.00\% \times \$350 \times 12) \times \text{Yrs}$

<b>Maximum Benefit:</b>		
<i>Non-General Tier III</i>	100% of final compensation (§31676.14, §31676.17, §31676.01, §31664.1, §31664).	
<i>General Tier III</i>	None	
<hr/>		
<b>Non-Service Connected Disability:</b>		
<i>Eligibility</i>	Five years of service (§31720).	
<i>Benefit Formula</i>	20% of Final Compensation plus 2% of Final Compensation for each full year of service in excess of five years, not to exceed 40% of Final Compensation (§31727.7).	
<hr/>		
<b>Service Connected Disability:</b>		
<i>Eligibility</i>	No age or service requirements (§31720).	
<i>Benefit Formula</i>	50% of Final Compensation (§31727.4).	

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**Pre-Retirement Death:**

*Non Service Connected (Not Vested) Before Eligible to Retire*

*Eligibility*

None.

*Benefit*

Refund of employee contributions with interest plus one month's eligible compensation for each year of service to a maximum of six months' compensation (§31781).

*Non Service Connected (Vested)*

*Eligibility*

Five years of service.

*Benefit*

60% of the greater of Service Retirement or Non Service Connected Disability Retirement benefit payable to surviving eligible spouse or eligible children (§31765.1, §31781.1), in lieu of above. Additionally, the spouse may choose a combined benefit of:

- A lump sum payment of up to six months' compensation (see above), and
- A monthly (60%) benefit reduced by actuarial equivalent of the lump sum payment (§31781.3).

*Service Connected Death*

50% of Final Compensation or 100% of Service Retirement benefit, if greater, payable to spouse or minor children (§31787). In addition, Safety members are entitled to benefits under Sections 31787.5 and 31787.6.

---

**Death After Retirement:**

*Service Retirement or Non Service Connected Disability Retirement*

Unless another option was selected at retirement, 60% of member's unmodified allowance continued to eligible spouse (§31760.1). An eligible spouse is a surviving spouse who was married to the member at least one year prior to the day of retirement (§31760.1), or, at least two years prior to the date of death and has attained age 55 on or prior to the date of death (§31760.2).

*Service Connected Disability Retirement*

Unless another option was selected at retirement, 100% of member's unmodified allowance continued to eligible spouse (§31786).

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

**Withdrawal Benefits:**

Refund of accumulated employee contributions with interest (§31628); or if accumulated employee contributions left on deposit, entitled to earned benefits commencing at any time after meeting eligibility criteria to retire (§31629.5 and §31700).

---

**Post-retirement  
Cost-of-Living Benefits:**

Future changes based on changes to the Consumer Price Index to a maximum of 2.50% per year. (§31870.4)

---

**Supplemental Retiree Benefit  
Reserve:**

The Association provides Supplemental Retiree Benefit Reserve benefits for eligible retirees. These benefits have been excluded from this valuation.

---

**Member Contributions:**

Please refer to Appendix A for the specific rates. Members in General Tiers I (excluding San Joaquin Valley Unified Air Pollution Control District) and IIA and Safety Tiers I and IIA do not contribute towards the cost-of-living benefits.

*General Tier I (non-SJVAPCD)*

*Basic*

Entry age based rates that provide for an average annuity at age 55 equal to 1/100 of FAS. (§31621.8)

*General Tier I (SVAPCD)*

*Basic*

Entry age based rates that provide for 50% of total Normal Cost Rate.

*General Tier IIA (non-SJVAPCD)*

*Basic*

Entry age based rates that provide for an average annuity at age 60 equal to 1/120 of FAS. (§31621)

*General Tier IIA (SVAPCD)*

*Basic*

Entry age based rates that provide for 50% of total Normal Cost Rate.

*General Tiers IIB and III*

Non-entry age based rates that provide for 50% of total Normal Cost Rate.

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

---

<i>Safety Tier I</i>	
<i>Basic</i>	Entry age based rates that provide for an average annuity at age 50 equal to 1/100 of FAS. (§31639.25)
<i>Supplemental</i>	Entry age based rates that provide for an average annuity at age 50 equal to 1/200 of FAS. (Resolution #2004-144)
<i>Safety "3" Tier I</i>	
<i>Basic and Supplemental</i>	At all entry ages, the member contribution rate for the above Safety Tier I members who enter the plan at age 27.
<i>Safety Tier IIA</i>	
<i>Basic</i>	Entry age based rates that provide for an average annuity at age 50 equal to 1/100 of FAS. (§31639.25)
<i>Safety "3" Tier IIA</i>	
<i>Basic</i>	At all entry ages, the member contribution rate for the above Safety Tier IIA members who enter the plan at age 27.
<i>Safety Tier IIB</i>	Non-entry age based rates that provide for 50% of total Normal Cost Rate.
<b>Other Information:</b>	Safety Tier I and Tier IIA members with 30 or more years of service are exempt from paying member contributions. Various other exemptions for member contributions are outlined on pages 20 through 24.
<b>Plan Changes:</b>	There have been no plan changes since the prior valuation.

---

**NOTE:** *The summary of major plan provisions is designed to outline principal plan benefits as interpreted for purposes of the actuarial valuation. If the Association should find the plan summary not in accordance with the actual provisions, the Association should alert the actuary so they can both be sure the proper provisions are valued.*

**SECTION 4: Reporting Information for the Kern County Employees' Retirement Association**

**Re: Kern County Employees' Retirement Association  
FY 2019-2020 Required Contributions with Adjustments to Reflect Three-Year  
Phase-in of Increases in Employer Unfunded Actuarial Accrued Liability (UAAL)  
Contribution Rate Due to Assumption Changes**

Dear Dominic:

The Board elected to phase-in (over a three-year period) the impact of the new actuarial assumptions on the employer Unfunded Actuarial Accrued Liability (UAAL) contribution rates for County General<sup>1</sup>, Courts and Safety as calculated in the June 30, 2017 Actuarial Valuation. This letter provides the second year “phased-in” employer contribution rates for the 2019-2020 fiscal year by cost group in the enclosed Exhibit A. The impact of the new actuarial assumptions on the UAAL is not “phased-in” for the District cost group, and the impact on the Normal Cost is not phased-in for any employers.

**PHASED-IN CONTRIBUTION RATES FOR 2019-2020**

The following table shows the full impact, by UAAL cost group, of the adopted actuarial assumptions on the employer UAAL contribution rate for the 2019-2020 fiscal year based on the June 30, 2017 Actuarial Valuation. The impact is measured as a percentage of payroll. These percentages are the portion of the increase in the UAAL employer contribution rates from the 2017 valuation that will be phased-in over three years.

<u>UAAL Cost Group:</u>	<u>UAAL Impact of New Actuarial Assumptions:</u>
County General and Courts (All Tiers)	2.62% of compensation
Safety (All Tiers)	4.95% of compensation

<sup>1</sup> Including the Hospital Authority

Exhibit A shows the “phased-in” employer contribution rates for the 2019-2020 fiscal year. The UAAL rates shown in this Exhibit (as compared with those in the June 30, 2018 actuarial valuation report) for each of the UAAL cost groups noted earlier reflect only two-thirds of the increase in the UAAL rate due to the new actuarial assumptions in the June 30, 2017 Actuarial Valuation. Note that different changes are reflected in the detailed components (Basic, 2% COLA and 0.5% COLA) of the employer contribution rates depending on the effect of the new actuarial assumptions on that specific rate component. Employer contribution rates for the District cost group are also shown, but they do not reflect the phase-in.

All of these rates may be adopted in conjunction with the June 30, 2018 Actuarial Valuation for the fiscal year that extends from July 1, 2019 through June 30, 2020.

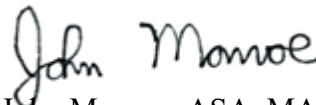

We are members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein.

If you have any questions, please let us know.

Sincerely,

Paul Angelo, FSA, MAAA, FCA, EA

*December 4, 2018*

*Board of Retirement  
Kern County Employees' Retirement Association  
11125 River Run Boulevard  
Bakersfield, California 93311*

*Dear Board Members:*

*We are pleased to submit our Supplemental Retiree Benefit Reserve (SRBR) Actuarial Valuation and Review as of June 30, 2018. It summarizes the actuarial data on members included in the SRBR valuation, determines the funding status of the SRBR benefits and analyzes the preceding year's experience.*

*This report was prepared in accordance with generally accepted actuarial principles and practices at the request of the Board. The census information on which our calculations were based was prepared by KCERA and the financial information was provided by the Retirement Association. That assistance is gratefully acknowledged.*

*The measurements shown in this actuarial valuation may not be applicable for other purposes. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period); and changes in plan provisions or applicable law.*

*The actuarial calculations were completed under the supervision of John Monroe, ASA, MAAA, Enrolled Actuary. We are members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. To the best of our knowledge, the information supplied in the actuarial valuation is complete and accurate. Further, in our opinion, the assumptions as approved by the Board are reasonably related to the experience of and the expectations for the Plan.*

*We look forward to reviewing this report at your next meeting and to answering any questions.*

*Sincerely,*

*Segal Consulting, a Member of The Segal Group, Inc.*

---

### Purpose and Scope

This report has been prepared by Segal Consulting to present a valuation of the Kern County Employees' Retirement Association Supplemental Retiree Benefit Reserve (SRBR) benefits as of June 30, 2018. The valuation was performed to determine the funding status of the SRBR benefits. The funding status information presented in this report is based on:

- The benefit provisions of the SRBR, as administered by the Retirement Association;
- The characteristics of covered active members, vested terminated members, retired members and beneficiaries as of June 30, 2018, provided by KCERA;
- The SRBR Reserve value as of June 30, 2018, provided by KCERA;
- Economic assumptions regarding future salary increases and investment earnings adopted by the Board for the June 30, 2018 valuation; and
- Other actuarial assumptions, regarding employee terminations, retirement, death, etc. adopted by the Board for the June 30, 2018 valuation.

Note that the investment return assumption of 7.25% used in this report was determined without taking into consideration any impact of the 50/50 excess earnings allocation between the retirement and SRBR asset pools. More details regarding this can be found in the actuarial valuation for funding purposes.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association SRBR Valuation

---

### Significant Issues in this Valuation

- Under the Board's policy, the SRBR funding status is calculated by comparing the SRBR Reserve excluding the court ordered Allocated SRBR Reserve (i.e., the 0.5% COLA Reserve), to the current actuarial funding target, which is the present value of all projected future SRBR benefit payments for all KCERA's current plan members.
- Additional or increased SRBR benefits may be adopted if the PVB for the SRBR benefits is more than 120% funded in the last two consecutive valuations. In addition, the policy also describes certain conditions that should be considered prior to adopting additional or increased SRBR benefits. These conditions include the funding status of the SRBR benefits, the potential impact of any deferred investment gains or losses not yet recognized in the asset smoothing method and any recent or potential changes in actuarial assumptions.
- The results of this valuation reflect the introduction of a SRBR Tier 4 benefit of \$21 and an increase in the SRBR Tier 3 purchasing power threshold from 80% to 82%, both effective July 1, 2018. Additionally, the Board adopted a cap on the maximum annual inflation used in calculation of SRBR Tier 3 benefits of 4%, which does not currently impact the results shown in this report.
- The funding status of the SRBR benefits decreased from 220% as of June 30, 2017 to 147% as of June 30, 2018 prior to reflecting any deferred investment gains or losses. The funding status of the SRBR benefits is 144% as of June 30, 2018 after reflecting deferred investment losses as of the same date.
- The decrease in the funding status for the SRBR benefits was primarily due to the introduction of an SRBR Tier 4 benefit, the increase in the SRBR Tier 3 purchasing power threshold and an investment loss, since the rate of return on the available SRBR (after smoothing) during 2017-2018 was about 7.0%, which is less than the 7.25% assumption used in the June 30, 2017 valuation. These losses were offset to some extent by the passage of time (i.e., expected changes in the funding status) and other liability gains.
- In the June 30, 2017 valuation, we assumed that the Consumer Price Index (CPI) would increase by 3.00% from 2016 to 2017, based on our long-term assumption for inflation used in that valuation. The actual increase in the CPI from 2016 to 2017 was 2.8%. Because the CPI increased by more than 2.5% (the maximum COLA possible), COLA bank balances were increased. With the exception of the increase due to the increased purchasing power threshold, current SRBR Tier 3 benefits mostly stayed the same because CPI increases in recent years were lower than the COLA increases for most retirees.

**SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association SRBR Valuation**

---

➤ The following table compares the reserves and liabilities for the SRBR benefits as of June 30, 2017 and 2018:

	<b><u>June 30, 2018</u></b>	<b><u>June 30, 2017</u></b>
1. Available SRBR Reserves		
a. Total SRBR	\$177,089,000	\$178,079,000
b. 0.5% COLA Account	<u>49,370,000</u>	<u>53,850,000</u>
c. Available SRBR Reserve (1.a. – 1.b.)	\$127,719,000	\$124,229,000
2. Present Value of SRBR Benefits:		
a. Approved Benefits	83,748,000	53,626,000
b. Future Benefits	<u>2,916,000</u>	<u>2,917,000</u>
c. Total (2.a. + 2.b.)	\$86,664,000	\$56,543,000
3. PVB minus Reserves (2.c.) – (1.c.)	-41,055,000	-67,886,000
4. Funding Ratio (1.c.) ÷ (2.c.)	147.4%	219.7%

➤ As of the June 30, 2018 valuation, the net deferred investment losses were 2.2% of the market value of assets. The Board's SRBR policy requires that the funding status be more than 120% in two consecutive valuations prior to implementing any benefit increases, taking into account the current status of deferred investment gains and losses not yet recognized under the asset smoothing method. Consistent with this requirement, we have reduced the available SRBR Reserve by this amount to account for these losses. The results before and after reflecting the deferred investment losses are as follows:

	<b><u>June 30, 2018</u></b> <b><u>After Reflecting</u></b> <b><u>Deferred Losses</u></b>	<b><u>June 30, 2018</u></b> <b><u>Before Reflecting</u></b> <b><u>Deferred Losses</u></b>
1. Available SRBR Reserves	\$124,909,000	\$127,719,000
2. Present Value of SRBR Benefits:	86,664,000	86,664,000
3. PVB minus Reserves (2.) – (1.)	-38,245,000	-41,055,000
4. Funding Ratio (1.) ÷ (2.)	144.1%	147.4%

## SECTION 2: Valuation Results for the Kern County Employees' Retirement Association SRBR Valuation

---

### A. INTRODUCTION

Additional benefits may be provided to KCERA active and retired members under the plan provisions adopted by the County as provided under article 5.5 of the County Employees Retirement Association Law of 1937 (CERL). These are the Supplemental Retiree Benefit Reserve (SRBR) benefits.

Article 5.5 governs the crediting of interest to reserves and the allocation of Undistributed Earnings. Undistributed Earnings are the amounts that remain after earnings have been used to credit interest to the Plan's reserves. They are generally thought of as earnings in excess of those assumed to be earned under the actuarial valuation assumptions.

Under the provisions of Article 5.5, and in accordance with the Board's Interest Crediting Policy, if Undistributed Earnings remain, then 50% of those Earnings are allocated to the SRBR and the remaining 50% are allocated as additional interest credits to all other reserve funds excluding the Contingency Reserve and the SRBR.

A summary of the benefits provided by the SRBR is displayed in Exhibit II. Note that, in addition, the KCERA Board has set aside a portion of the SRBR reserve to help pay for an additional 0.5% COLA adopted under the Ventura Settlement. The assets and liabilities related to this additional 0.5% COLA are included in the regular valuation and are therefore excluded from this SRBR valuation.

### B. DEMOGRAPHIC DATA

Chart 1 below provides a summary of the number of members eligible for Approved Benefits as of June 30, 2018. It also contains information on the monthly SRBR benefits in pay status as of June 30, 2018.

Each of the various SRBR benefits and their eligibilities are described in Exhibit II.

---

#### CHART 1

##### Table of Coverage

<b>Members Eligible for Approved Benefits as of June 30, 2018</b>	<b>Death Benefits</b>	<b>SRBR1</b>	<b>SRBR2</b>	<b>SRBR 3</b>	<b>SRBR 4</b>
1. Active Members	8,867	481	-	-	8,867
2. Deferred Vested Members	2,604	208	-	-	2,604
3. Retirees and Beneficiaries	7,092	6,531	356	322	8,286
4. Total	18,563	7,220	356	322	19,757
5. Total monthly benefits in pay status as of June 30, 2018		\$212,500	\$52,400	\$95,000	\$161,400
6. Average monthly benefit in pay status as of June 30, 2018		\$33	\$147	\$295	\$19

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association SRBR Valuation**

**C. FUNDING STATUS**

Undistributed Earnings are the only source of funding for the SRBR Benefits. By their very nature, Undistributed Earnings are produced on an inconsistent basis and cannot be relied upon on to appear in any single period.

The actuarial assumptions and methods used to determine the Present Value of Future SRBR Benefits (PVB) are shown in Exhibit I. These are the same assumptions and methods used in the regular June 30, 2018 KCERA valuation.

KCERA's funding target for the SRBR is based on the PVB. They include all Tier 1, Tier 2, Tier 4 and Death Benefits, as well as all current and projected future Tier 3 benefits.

The chart below shows the funding status of the SRBR benefits before reflecting deferred investment losses.

**CHART 2**

**Funding Status of SRBR Benefits before Reflecting Deferred Investment Losses**

	<u>June 30, 2018</u>	<u>June 30, 2017</u>
1. Available SRBR Reserves before Reflecting Deferred Investment Losses		
a. Total SRBR	\$177,089,000	\$178,079,000
b. 0.5% COLA Account	<u>49,370,000</u>	<u>53,850,000</u>
c. Available SRBR Reserve (1.a. – 1.b.)	\$127,719,000	\$124,229,000
2. Present Value of Future SRBR Benefits (PVB)		
a. Death Benefits	\$16,774,000	\$16,332,000
b. SRBR1	26,736,000	27,381,000
c. SRBR2	3,037,000	3,397,000
d. SRBR3	9,300,000	9,433,000
e. SRBR4	<u>30,817,000</u>	<u>0</u>
f. Total	\$86,664,000	\$56,543,000
3. PVB Minus Reserves Available (2.f. – 1.c.)	-\$41,055,000	-\$67,686,000
4. Funding Ratio before Reflecting Deferred Investment Losses (1.c./2.f.)	147.4%	219.7%

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association SRBR Valuation**

**C. FUNDING STATUS (continued)**

The Board's SRBR policy requires that the funding status be more than 120% in two consecutive valuations, *taking into account the current status of deferred investment gains and losses not yet recognized under the asset smoothing method* and any recent or potential changes in actuarial assumptions, prior to implementing any benefit increases.

The chart below shows the funding status of the SRBR benefits after reflecting deferred investment losses.

**CHART 3**

**Funding Status of SRBR Benefits after Reflecting Deferred Investment Losses**

	<b><u>June 30, 2018</u></b>	<b><u>June 30, 2017</u></b>
1. Available SRBR Reserves after Reflecting Deferred Investment Losses	\$124,909,000	\$121,893,000
2. Present Value of Future SRBR Benefits (PVB)		
a. Death Benefits	16,774,000	16,332,000
b. SRBR1	26,736,000	27,381,000
c. SRBR2	3,037,000	3,397,000
d. SRBR3	9,300,000	9,433,000
e. SRBR4	<u>30,817,000</u>	<u>0</u>
f. Total	\$86,664,000	\$56,543,000
3. PVB Minus Reserves Available (2.f. – 1.)	-\$38,245,000	-\$65,350,000
4. Funding Ratio after Reflecting Deferred Investment Losses (1./2.f.)	144.1%	215.6%

**SECTION 2: Valuation Results for the Kern County Employees' Retirement Association SRBR Valuation**

---

**C. FUNDING STATUS (continued)**

The funding status of the SRBR benefits as measured by the funding ratio decreased from 219.7% as of June 30, 2017 to 147.4% as of June 30, 2018 prior to reflecting any deferred investment gains or losses.

The following chart details the changes in the funding ratio from the prior year's valuation to the current year's valuation.

The decrease in the funding status for the SRBR benefits was primarily due to the introduction of an SRBR Tier 4 benefit, the increase in the SRBR Tier 3 purchasing power threshold, and an investment loss, since the rate of return on the available SRBR (after smoothing) during 2017-2018 was about 7.0%, which is less than the 7.25% assumption (based on the June 30, 2017 valuation). These losses were offset to some extent by the passage of time (i.e., expected changes in the funding status) and other liability gains.

---

**CHART 4**

**Reconciliation of Funding Ratio for SRBR Benefits**

---

1. Funding Ratio as of June 30, 2017	219.7%
2. Changes due to:	
a. Passage of Time (Expected Changes)	11.3%
b. Investment Loss	-0.5%
c. Inflation Gain	0.2%
d. Other Liability Gain	2.8%
e. Plan Changes	<u>-86.1%</u>
f. Total	-72.3%
3. Funding Ratio as of June 30, 2018	147.4%

---

Note: Results are prior to reflecting any deferred investment gains or losses as of each valuation date.

**EXHIBIT I**

**Actuarial Assumptions and Methods**

---

<b>Actuarial Assumptions:</b>	The same actuarial assumptions used in the KCERA June 30, 2018 Actuarial Valuation and Review.
<b>Actuarial Value of Assets:</b>	Supplemental Retiree Benefit Reserve value as of valuation date.
<b>Actuarial Cost Method:</b>	Not applicable, since only the Present Value of Future Benefits (PVB) is determined in this report.

**SECTION 3: Supporting Exhibits for the Kern County Employees' Retirement Association SRBR Valuation**

---

---

**EXHIBIT II**

**Summary of Plan Provisions**

---

<b>Benefits Provided:</b>	The SRBR currently provides four categories of benefits:
<b>Tier 1:</b>	\$35.50 per month payable to retirees who were hired on or before July 1, 1994.
<b>Tier 2:</b>	Three additional monthly stipends payable to retirees: <ul style="list-style-type: none"><li>• \$1.372 per year of service for members who retired prior to 1985. This was granted July 1, 1994.</li><li>• \$5.470 per year of service for members who retired prior to 1985. This was granted July 1, 1996.</li><li>• \$10.276 per year of service for members who retired prior to 1981. This was granted July 1, 1997.</li></ul> Upon death of the retired member, 60% of the Tier 1 and Tier 2 SRBR benefits continue to the retired member's beneficiary.
<b>Tier 3:</b>	Additional benefits to maintain 82% purchasing power protection. Upon death, this benefit continues to be paid to the retired member's beneficiary based on the applicable continuation percentage under the member's form of payment elected at retirement. There is a cap on the maximum annual inflation used in the calculation of the SRBR Tier 3 benefits of 4%.
<b>Tier 4:</b>	\$21 per month granted starting July 1, 2018, payable to retirees who were hired prior to July 1, 2018. Upon death of the retired member, 60% of the Tier 4 SRBR benefit continues to the retired member's beneficiary.
<b>Death Benefit:</b>	An additional one-time post-retirement death benefit of \$5,000 is paid to a retired member's beneficiary upon the death of the retired member.
<hr/>	
<b>Plan Changes:</b>	
<i>Tier 3:</i>	Add cap on inflation used in calculation of SRBR Tier 3 benefits of 4% and increase purchasing power threshold from 80% to 82%.
<i>Tier 4:</i>	New benefit of \$21 per month granted starting July 1, 2018, payable to retirees who were hired prior to July 1, 2018. Upon death of the retired member, 60% of the Tier 4 SRBR benefit continues to the retired member's beneficiary.

*November 28, 2018*

*Board of Retirement  
Kern County Employees' Retirement Association  
11125 River Run Blvd.  
Bakersfield, CA 93311*

*Dear Board Members:*

*We are pleased to submit this Governmental Accounting Standard (GAS) 67 Actuarial Valuation as of June 30, 2018. It contains various information that will need to be disclosed in order to comply with GAS 67.*

*This report was prepared in accordance with generally accepted actuarial principles and practices at the request of the Board to assist KCERA in preparing items related to the pension plan in their financial report. The census and financial information on which our calculations were based was provided by KCERA. That assistance is gratefully acknowledged.*

*The measurements shown in this actuarial valuation may not be applicable for other purposes. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period); and changes in plan provisions or applicable law.*

*The actuarial calculations were completed under the supervision of John Monroe, ASA, MAAA, Enrolled Actuary. We are members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. To the best of our knowledge, the information supplied in the actuarial valuation is complete and accurate. Further, in our opinion, the assumptions as approved by the Board are reasonably related to the experience of and expectations for the Association.*

*We look forward to reviewing this report with you and to answering any questions.*

*Sincerely,*

*Segal Consulting, a Member of The Segal Group, Inc.*

## **SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association**

---

### **Purpose**

This report has been prepared by Segal Consulting to present certain disclosure information required by Governmental Accounting Standard (GAS) 67 as of June 30, 2018. This valuation is based on:

- The benefit provisions of KCERA, as administered by the Board of Retirement;
- The characteristics of covered active members, inactive vested members, and retired members and beneficiaries as of June 30, 2017, provided by KCERA;
- The assets of the Plan as of June 30, 2018, provided by KCERA;
- Economic assumptions regarding future salary increases and investment earnings adopted by the Board for the June 30, 2018 valuation; and
- Other actuarial assumptions, regarding employee terminations, retirement, death, etc. adopted by the Board for the June 30, 2018 valuation.

### **General Observations on GAS 67 Actuarial Valuation**

The following points should be considered when reviewing this GAS 67 report:

- The Governmental Accounting Standards Board (GASB) rules only define pension liability and expense for financial reporting purposes, and do not apply to contribution amounts for actual pension funding purposes. Employers and plans develop and adopt funding policies under current practices.
- When measuring pension liability GASB uses the same actuarial cost method (Entry Age method) and the same type of discount rate (expected return on assets) as KCERA uses for funding. This means that the Total Pension Liability (TPL) measure for financial reporting shown in this report is determined on generally the same basis as KCERA's Actuarial Accrued Liability (AAL) measure for funding. We note that the same is generally true for the Normal Cost component of the annual plan cost for funding and financial reporting.
- The Plan's Fiduciary Net Position includes assets held for the Supplemental Retiree Benefit Reserve (SRBR). The TPL reflects all future projected benefits expected to be paid from the SRBR for members as of the valuation date.
- The Net Pension Liability (NPL) is equal to the difference between the TPL and the Plan's Fiduciary Net Position. The Plan's Fiduciary Net Position is equal to the market value of assets and therefore, the NPL measure is very similar to an Unfunded Actuarial Accrued Liability (UAAL) calculated on a market value basis. The exception is that the NPL is reduced by the excess of the SRBR assets over the TPL associated with the SRBR benefits.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

- For this report, the reporting dates for the Plan are June 30, 2018 and June 30, 2017. The NPL was measured as of June 30, 2018 and June 30, 2017, respectively and was determined based upon rolling forward the results from actuarial valuations as of June 30, 2017 and June 30, 2016. In addition, any changes in actuarial assumptions or plan provisions that occurred between the valuation date and the measurement date have been reflected. The Plan's Fiduciary Net Position (plan assets) was valued as of the measurement dates.

### Significant Issues in Valuation Year

The following key findings were the result of this actuarial valuation:

- The NPL decreased from \$2.36 billion as of June 30, 2017 to \$2.33 billion as of June 30, 2018 primarily due to the gains from lower than expected active salary increases and lower than expected retiree COLA increases during 2016-2017 (because liabilities are rolled forward from June 30, 2017 to June 30, 2018, these changes are not reflected until this valuation as of June 30, 2018), offset to some extent by the change in SRBR plan provisions effective July 1, 2018 that provides for an SRBR Tier 4 benefit and increases the SRBR Tier 3 purchasing power from 80% to 82%. Changes in these values during the last two fiscal years ending June 30, 2017 and June 30, 2018 can be found in Exhibit 3 of Section 2.
- All results shown in this report are on a combined basis including both the regular statutory (non-Supplemental Retirement Benefit Reserve (SRBR)) benefits and the SRBR benefits. For purposes of illustration, separate values for the TPL, Plan's Fiduciary Net Position and NPL for the regular statutory (non-SRBR) benefits and the SRBR benefits as of June 30, 2018 is shown in the table below:

	Regular Benefits (Non-SRBR)	SRBR Benefits	Total KCERA
Total Pension Liability (TPL)	\$6,444,352,894	\$85,309,436	\$6,529,662,330
Plan's Fiduciary Net Position	4,071,143,271	127,719,014	4,198,862,285
Net Pension Liability (NPL)	2,373,209,623	(42,409,578)	2,330,800,045

- The discount rate used to determine the TPL and NPL as of June 30, 2018 and June 30, 2017 was 7.25%, following the same assumption used by the Association in the funding valuations as of the same dates. The detailed derivation of the discount rate of 7.25% used in the calculation of the TPL and NPL as of June 30, 2018 can be found in Exhibit 5 of Section 2. The discount rate assumptions have been developed without taking into consideration any impact of the 50/50 allocation of future excess earnings between the retirement and SRBR asset pools.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

- As discussed previously in our separate letter regarding the treatment of the SRBR for financial reporting purposes, the Actuarial Standard of Practice (ASOP) No. 4 (“Measuring Pension Obligations and Determining Pension Plan Costs or Contributions”) was revised in December 2013, effective for measurement dates on or after December 31, 2014. The revised ASOP states that some plan provisions, including “gain sharing” provisions, “may create pension obligations that are difficult to appropriately measure using traditional valuation procedures.” ASOP No. 4 now indicates that “for such plan provisions, the actuary should consider using alternative valuation procedures, such as stochastic modeling... to reflect the impact of variations in experience from year to year.” The 50% allocation of future excess earnings to the SRBR for KCERA is a clear example of the gain sharing provisions referenced by ASOP No. 4.

After several meetings with KCERA and its auditors, and based on information regarding another SRBR system that included discussions with GASB staff, it was previously determined that future allocations to the SRBR should be treated as an additional “outflow” (i.e., assets not available to fund the benefits included in the determination of the TPL) against the Plan’s Fiduciary Net Position in the GASB crossover test<sup>1</sup> (see Appendix A).

However, as noted earlier, the Plan’s Fiduciary Net Position includes assets held for the SRBR, and the TPL includes all projected future benefits expected to be paid from the SRBR for members as of the valuation date. This treatment was also discussed with KCERA and its auditors and determined to be appropriate. Therefore, any outflows due to the 50/50 excess earnings allocation would not affect the outcome of the crossover test since the crossover test is performed based on the combined results of the statutory (non-SRBR) benefits and the SRBR.

- Based on discussions with KCERA and their auditors, starting with the June 30, 2016 measurement date for the employers, employer paid member contributions are excluded from employer contributions in the determination of the Actuarially Determined Contribution (ADC). The amount of employer paid member contributions was estimated by first determining what the employer contribution rates would have been during the year, excluding any employer paid member contributions. The actual employer contribution rates were then adjusted by the ratio of the employer contribution rates determined above and the employer contribution rates determined in the annual actuarial valuation. The result is the employer contributions excluding any employer paid member contributions. This change was not been applied on a retroactive basis prior to the 2015-2016 fiscal year.
- Various other information that is required to be disclosed can be found throughout Exhibits 1 through 4 in Section 2.

---

<sup>1</sup> The purpose of the GASB crossover test is to determine if the full expected return (or 7.25% in this case) can be used as the discount rate to determine the TPL and the NPL. That is, if there is no crossover point where the projected benefit payments would exceed the Plan’s Fiduciary Net Position, then the full expected return assumption can be used. As detailed later in this report, KCERA does pass the crossover test, which means that the full 7.25% investment rate of return assumption can be used as the discount rate to determine the TPL and the resulting NPL.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

### Summary of Key Valuation Results

	2018	2017
<b>Disclosure elements for fiscal year ending June 30:</b>		
Service Cost <sup>(1)</sup>	\$123,407,183	\$122,184,336
Total Pension Liability	6,529,662,330	6,326,870,318
Plan's Fiduciary Net Position	4,198,862,285	3,962,895,176
Net Pension Liability	2,330,800,045	2,363,975,142
<b>Schedule of contributions for fiscal year ending June 30:</b>		
Actuarially determined contributions <sup>(2)</sup>	\$242,534,000	\$224,351,000
Actual contributions	242,534,000	224,351,000
Contribution deficiency (excess)	0	0
<b>Demographic data for plan year ending June 30:<sup>(3)</sup></b>		
Number of retired members and beneficiaries	8,301	8,093
Number of vested terminated members <sup>(4)</sup>	2,604	2,363
Number of active members	8,867	8,728
<b>Key assumptions as of June 30:</b>		
Investment rate of return	7.25%	7.25%
Inflation rate	3.00%	3.00%
Projected salary increases <sup>(5)</sup>	General: 4.00% to 9.00% and Safety: 4.00% to 12.50%	General: 4.00% to 9.00% and Safety: 4.00% to 12.50%

<sup>(1)</sup> Excludes administrative expense load. The service cost is based on the previous year's valuation, meaning the June 30, 2018 and June 30, 2017 values are based on the valuations as of June 30, 2017 and June 30, 2016, respectively. The 2018 service cost has been calculated using the assumptions shown in the 2017 column and the 2017 service cost has been calculated using the assumptions used in the 2016 valuation. The key assumptions as of June 30, 2016 are as follows:

#### Key assumptions as of June 30, 2016:

Investment rate of return	7.50%
Inflation rate	3.25%
Projected salary increases*	General: 4.25% to 9.25% and Safety: 4.25% to 11.75%

\* Includes inflation at 3.25% plus real across-the-board salary increases of 0.50% plus merit and promotional increases vary by service.

<sup>(2)</sup> See footnote (1) under Exhibit 4 on page 8.

<sup>(3)</sup> Data as of June 30, 2017 is used in the measurement of the TPL as of June 30, 2018.

<sup>(4)</sup> Includes terminated members due a refund of member contributions.

<sup>(5)</sup> Includes inflation at 3.00% plus real across-the-board salary increase of 0.50% plus merit and promotional increases that vary by service.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

### Important Information about Actuarial Valuations

An actuarial valuation is a budgeting tool with respect to the financing of future projected obligations of a pension plan. It is an estimated forecast – the actual long-term cost of the plan will be determined by the actual benefits and expenses paid and the actual investment experience of the plan.

In order to prepare an actuarial valuation, Segal Consulting (“Segal”) relies on a number of input items. These include:

- **Plan of benefits** Plan provisions define the rules that will be used to determine benefit payments, and those rules, or the interpretation of them, may change over time. It is important to keep Segal informed with respect to plan provisions and administrative procedures, and to review the plan description in this report (as well as the plan summary included in our funding valuation report) to confirm that Segal has correctly interpreted the plan of benefits.
- **Participant data** An actuarial valuation for a plan is based on data provided to the actuary by KCERA. Segal does not audit such data for completeness or accuracy, other than reviewing it for obvious inconsistencies compared to prior data and other information that appears unreasonable. It is important for Segal to receive the best possible data and to be informed about any known incomplete or inaccurate data.
- **Assets** This valuation is based on the market value of assets as of the valuation date, as provided by KCERA.
- **Actuarial assumptions** In preparing an actuarial valuation, Segal projects the benefits to be paid to existing plan participants for the rest of their lives and the lives of their beneficiaries. This projection requires actuarial assumptions as to the probability of death, disability, withdrawal, and retirement of each participant for each year. In addition, the benefits projected to be paid for each of those events in each future year reflect actuarial assumptions as to salary increases and cost-of-living adjustments. The projected benefits are then discounted to a present value, based on the assumed rate of return that is expected to be achieved on the plan’s assets. There is a reasonable range for each assumption used in the projection and the results may vary materially based on which assumptions are selected. It is important for any user of an actuarial valuation to understand this concept. Actuarial assumptions are periodically reviewed to ensure that future valuations reflect emerging plan experience. While future changes in actuarial assumptions may have a significant impact on the reported results, that does not mean that the previous assumptions were unreasonable.

The user of Segal’s actuarial valuation (or other actuarial calculations) should keep the following in mind:

- The valuation is prepared at the request of the Board to assist KCERA in preparing items related to the pension plan in their financial report. Segal is not responsible for the use or misuse of its report, particularly by any other party.

## SECTION 1: Valuation Summary for the Kern County Employees' Retirement Association

---

- An actuarial valuation is a measurement of the plan's assets and liabilities at a specific date. Accordingly, except where otherwise noted, Segal did not perform an analysis of the potential range of future financial measures. The actual long-term cost of the plan will be determined by the actual benefits and expenses paid and the actual investment experience of the plan.
- If KCERA is aware of any event or trend that was not considered in this valuation that may materially change the results of the valuation, Segal should be advised, so that we can evaluate it.
- Segal does not provide investment, legal, accounting, or tax advice. Segal's valuation is based on our understanding of applicable guidance in these areas and of the plan's provisions, but they may be subject to alternative interpretations. The Board should look to their other advisors for expertise in these areas.

As Segal Consulting has no discretionary authority with respect to the management or assets of KCERA, it is not a fiduciary in its capacity as actuaries and consultants with respect to KCERA.

**SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association**

---

**EXHIBIT 1**

**General Information – “Financial Statements”, Note Disclosures and Required Supplementary Information for a Cost-Sharing Pension Plan**

---

**Plan Description**

*Plan administration.* The Kern County Employees' Retirement Association (KCERA) was established by the County of Kern in 1945. KCERA is administered by the Board of Retirement and governed by the County Employees' Retirement Law of 1937 (California Government Code Section 31450 et. seq.), the California Public Employees' Pension Reform Act (CalPEPRA) and the bylaws, procedures and policies adopted by the KCERA Board. KCERA is a cost-sharing multiple employer defined benefit public employee retirement system whose main function is to provide retirement, disability, death, beneficiary, cost-of-living and supplemental retirement benefits to the General and Safety members employed by the County of Kern. KCERA also provides retirement benefits to the employee members of the Berrenda Mesa Water District, Buttonwillow Recreation and Park District, East Kern Cemetery District, Inyokern Community Services District, Kern County Water Agency, Kern Mosquito and Vector Control District, North of the River Sanitation District, San Joaquin Valley Unified Air Pollution Control District, Shafter Recreation and Park District, West Side Cemetery District, West Side Mosquito and Vector Control District, West Side Recreation and Park District, and the Kern County Superior Court, and the Kern County Hospital Authority.

The management of KCERA is vested with the KCERA Board of Retirement. The Board consists of nine members and two alternate members. The County Treasurer is elected by the general public and is a member of the Board of Retirement by law. Four members are appointed by the Board of Supervisors, one of whom may be a County Supervisor; two members are elected by the general membership; one member and one alternate member are elected by the safety membership; and one member and one alternate member are elected by the retired members of the Association. All members of the Board of Retirement serve terms of three years except for the County Treasurer whose term runs concurrent with his term as County Treasurer.

*Plan membership.* At June 30, 2018, pension plan membership consisted of the following:

Retired members or beneficiaries currently receiving benefits	8,301
Vested terminated members entitled to, but not yet receiving benefits <sup>(1)</sup>	2,604
Active members	<u>8,867</u>
Total	19,772

<sup>(1)</sup> Includes terminated members due a refund of member contributions.

Note: Data as of June 30, 2018 is not used in the measurement of the TPL as of June 30, 2018.

## SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association

---

*Benefits provided.* KCERA provides retirement, disability, beneficiary, cost-of-living and supplemental retirement benefits to eligible employees. All regular full-time employees of the County of Kern or contracting districts who work 50% or more of the regular standard hours required become members of KCERA effective on the first day of the first full biweekly payroll period following the date of employment. There are separate retirement benefits for General and Safety members. Safety membership is extended to those involved in active law enforcement, fire suppression, and certain probation officers.

General members (excluding Tier III) are eligible to retire once they attain the age of 70 regardless of service or at age 50 and have acquired 10 or more years of retirement service credit. A member with 30 years of service is eligible to retire regardless of age. General Tier III members are eligible to retire once they have attained the age of 70 regardless of service or at age 52 and have acquired 5 or more years of retirement service credit.

Safety members are eligible to retire once they attain the age of 70 regardless of service or at age 50 and have acquired 10 or more years of retirement service credit. A member with 20 years of service is eligible to retire regardless of age.

The retirement benefit the member will receive is based upon age at retirement, final average compensation, years of retirement service credit and retirement plan and tier.

General member benefits for Tier I and Tier II are calculated pursuant to the provisions of California Government Code Sections 31676.17 and 31676.01, respectively. The monthly allowance is equal to 1/50th of final average compensation times years of accrued retirement service credit times age factor from Section 31676.17 (Tier I) or 1/90th of final average compensation times years of accrued retirement service credit times age factor from Section 31676.01 (Tier II). General Tier III member benefits are calculated pursuant to the provisions found in California Government Code Section 7522.20(a). The monthly allowance is equal to the final average compensation multiplied by years of accrued retirement credit multiplied by the age factor from Section 7522.20(a).

Safety member benefits for Tier I and Tier II are calculated pursuant to the provisions of California Government Code Sections 31664.1 and 31664, respectively. The monthly allowance is equal to 3% of final average compensation times years of accrued retirement service credit times age factor from 31664.1 (Tier I) or 1/50th (or 2%) of final average compensation times years of accrued retirement service credit times age factor from Section 31664 (Tier II).

For members in Tier I or Tier II, the maximum monthly retirement allowance is 100% of final average compensation. There is no final average compensation limit on the maximum retirement benefit for General Tier III members. However, the maximum amount of compensation earnable that can be taken into account for 2018 for members with membership dates on or after July 1, 1996 but before January 1, 2013 is \$275,000. For members with membership dates on or after January 1, 2013 the maximum amount of pensionable compensation that can be taken into account for 2018 is equal to \$121,388 for those enrolled

## SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association

---

in Social Security. These limits are adjusted on an annual basis. Members are exempt from paying member contributions and employers are exempt from paying employer contributions on compensation in excess of the annual cap.

Final average compensation consists of the highest 12 consecutive months of pensionable pay for a General Tier I or Tier IIA member or a Safety Tier I or Tier IIA member and the highest 36 consecutive months of pensionable pay for a General Tier IIB or Tier III member or a Safety Tier IIB member.

The member may elect an unmodified retirement allowance, or choose an optional retirement allowance. The unmodified retirement allowance provides the highest monthly benefit and a 60% continuance to an eligible surviving spouse or domestic partner. An eligible surviving spouse or domestic partner is one married to or registered with the member one year prior to the effective retirement date. Certain surviving spouses or domestic partners may also be eligible if marriage or domestic partnership was at least two years prior to the date of death and the surviving spouse or domestic partner has attained age 55 on or prior to the date of death. There are four optional retirement allowances the member may choose. Each of the optional retirement allowances requires a reduction in the unmodified retirement allowance in order to allow the member the ability to provide certain benefits to a surviving spouse, domestic partner, or named beneficiary having an insurable interest in the life of the member to a surviving spouse, domestic partner, or named beneficiary having an insurable interest in the life of the member.

KCERA provides an annual cost-of-living benefit to all retirees. The cost-of-living adjustment, based upon the Consumer Price Index for the Los Angeles-Riverside-Orange County Area, is capped at 2.5%.

The County of Kern and contracting districts contribute to the retirement plan based upon actuarially determined contribution rates adopted by the Board of Retirement. Employer contribution rates are adopted annually based upon recommendations received from KCERA's actuary after the completion of the annual actuarial valuation. The average employer contribution rate as of June 30, 2018 for 2017-2018 (based on the June 30, 2016 valuation) was 44.78% of compensation.

Members are required to make contributions to KCERA regardless of the retirement plan or tier in which they are included. The average member contribution rate as of June 30, 2018 for 2017-2018 (based on the June 30, 2016 valuation) was 6.22% of compensation.

**SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association**

**EXHIBIT 2  
Net Pension Liability**

The components of the Net Pension Liability are as follows:

	June 30, 2018	June 30, 2017
Total Pension Liability	\$6,529,662,330	\$6,326,870,318
Plan's Fiduciary Net Position	<u>(4,198,862,285)</u>	<u>(3,962,895,176)</u>
Net Pension Liability	\$2,330,800,045	\$2,363,975,142
Plan's Fiduciary Net Position as a percentage of the Total Pension Liability	64.30%	62.64%

The Net Pension Liability (NPL) for the plan was measured as of June 30, 2018 and June 30, 2017. The Plan's Fiduciary Net Position (plan assets) was valued as of the measurement dates while the Total Pension Liability (TPL) was determined based upon rolling forward the TPL from actuarial valuations as of June 30, 2017 and June 30, 2016, respectively.

*Plan provisions.* The plan provisions used in the measurement of the NPL as of June 30, 2018 and June 30, 2017 are the same as those used in the KCERA actuarial valuation as of June 30, 2018 and June 30, 2017, respectively. The TPL and the Plan's Fiduciary Net Position include liabilities and assets held for the Supplemental Retiree Benefit Reserve (SRBR).

*Actuarial assumptions and methods.* The TPLs as of June 30, 2018 and June 30, 2017 that were measured by actuarial valuations as of June 30, 2017 and June 30, 2016, respectively, used the same actuarial assumptions and actuarial cost method as the June 30, 2018 and June 30, 2017 funding valuations. The actuarial assumptions used in both valuations were based on the results of an experience study for the period from July 1, 2013 through June 30, 2016. In particular, the following actuarial assumptions were applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	General: 4.00% to 9.00% and Safety: 4.00% to 12.50%, varying by service, including inflation
Investment rate of return	7.25%, net of pension plan investment expense, including inflation
Administrative expenses	0.90% of payroll allocated to both the employer and the member based on the components of the total average contribution rate (before expenses) for the employer and the member
Other assumptions	Same as those used in the June 30, 2018 and June 30, 2017 funding valuations. These assumptions were developed in the analysis of actuarial experience for the period July 1, 2013 through June 30, 2016.

## SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association

---

The Entry Age Actuarial Cost Method used in KCERA's annual actuarial valuation has also been applied in measuring the service cost and TPL with one exception. For purposes of measuring the service cost and TPL, we have reflected the same plan provisions used in determining the member's Actuarial Present Value of Projected Benefits. This is different from the version of this method applied in KCERA's annual funding valuation, where the Normal Cost is determined as if the current benefit accrual rate had always been in effect.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before deducting investment expenses are shown in the following table. This information was used in the derivation of the long-term expected investment rate of return assumptions used in the June 30, 2018 and June 30, 2017 valuations. This information will change every three years based on the actuarial experience study.

Asset Class	Target Allocation	Long-Term Expected Arithmetic Real Rate of Return
Large Cap U.S. Equity	15%	5.61%
Small Cap U.S. Equity	4%	6.37%
Global Equity	6%	6.50%
Developed International Equity	8%	6.96%
Emerging Market Equity	4%	9.28%
U.S. Core Fixed Income	19%	1.06%
High Yield/Specialty	6%	3.65%
Emerging Market Debt	4%	3.85%
Core Real Estate	5%	4.37%
Value Added Real Estate	5%	6.00%
Commodities	4%	3.76%
Hedge Funds	10%	4.70%
Private Equity	5%	8.70%
Private Credit	5%	5.10%
<b>Total</b>	<b>100%</b>	

**SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association**

---

*Discount rate.* The discount rate used to measure the TPL was 7.25% as of June 30, 2018 and June 30, 2017. The projection of cash flows used to determine the discount rates assumed plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employee and employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the Plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL as of both June 30, 2018 and June 30, 2017.

The discount rate assumptions have been developed without taking into consideration any impact of the 50/50 allocation of future excess earnings between the retirement and Supplement Retirement Benefit Reserve (SRBR) asset pools.

*Sensitivity of the Net Pension Liability to changes in the discount rate.* The following presents the NPL of the KCERA as of June 30, 2018, calculated using the discount rate of 7.25%, as well as what the KCERA's NPL would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	<b>1% Decrease (6.25%)</b>	<b>Current Discount Rate (7.25%)</b>	<b>1% Increase (8.25%)</b>
Net Pension Liability as of June 30, 2018	\$3,198,828,485	\$2,330,800,045	\$1,617,558,748

**SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association**

**Schedule of Employer Contributions – Last Ten Fiscal Years**

<b>Year Ended June 30</b>	<b>Actuarially Determined Contributions<sup>(1)</sup></b>	<b>Contributions in Relation to the Actuarially Determined Contributions</b>	<b>Contribution Deficiency (Excess)</b>	<b>Covered Payroll<sup>(2)</sup></b>	<b>Contributions as a Percentage of Covered Payroll</b>
2009	\$138,815,000	\$138,815,000	\$0	\$482,879,000	28.74%
2010	151,127,000	151,127,000	0	559,872,000	26.99%
2011	177,444,000	177,444,000	0	559,380,000	31.72%
2012	189,837,000	189,837,000	0	526,079,162	36.09%
2013	211,677,000	211,677,000	0	516,465,189	40.99%
2014	220,393,000	220,393,000	0	533,850,811	41.28%
2015	215,477,000	215,477,000	0	531,598,183	40.53%
2016	216,229,000	216,229,000	0	537,539,991	40.23%
2017	224,351,000	224,351,000	0	546,671,003	41.04%
2018	242,534,000	242,534,000	0	576,728,789	42.05%

*See accompanying notes to this schedule on next page.*

<sup>(1)</sup> All "Actuarially Determined Contributions" through June 30, 2014 were determined as the "Annual Required Contribution" under GAS 25 and 27. Starting from 2016, actuarially determined contributions exclude employer paid member contributions.

<sup>(2)</sup> Covered payroll represents payroll on which contributions to the pension plan are based.

**SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association**

**Notes to Exhibit 4**

**Methods and used assumptions to establish “actuarially determined contribution” rates:**

<b>Valuation date</b>	Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported	
<b>Actuarial cost method</b>	Entry Age Actuarial Cost Method	
<b>Amortization method</b>	Level percent of payroll for total unfunded liability	
<b>Remaining amortization period</b>	17.5 years as of June 30, 2018 for all UAAL as of June 30, 2011. Effective June 30, 2012, any changes in UAAL due to actuarial gains or losses or due to changes in actuarial assumptions or methods will be amortized over a 18-year closed period effective with each valuation. Any change in unfunded actuarial accrued liability that arises due to plan amendments is amortized over its own declining 15-year period (with exception of a change due to retirement incentives, which is amortized over a declining period of up to 5 years).	
<b>Asset valuation method</b>	Market value of assets (MVA) less unrecognized returns in each of the last five years. Unrecognized returns are equal to the difference between the actual market return and the expected return on a market value basis and are recognized semi-annually over a five-year period. The AVA cannot be less than 50% of MVA, nor greater than 150% of MVA. The Actuarial Value of Assets (AVA) is reduced by the value of the non-valuation reserves.	
<b>Actuarial assumptions:</b>	<u>June 30, 2018 Valuation Date</u>	<u>June 30, 2017 Valuation Date</u>
Investment rate of return	7.25%, net of pension plan investment expenses, including inflation	7.25%, net of pension plan investment expenses, including inflation
Inflation rate	3.00%	3.00%
Real across-the-board salary increase	0.50%	0.50%
Projected salary increases <sup>(1)</sup>	General: 4.00% to 9.00% and Safety: 4.00% to 12.50%	General: 4.00% to 9.00% and Safety: 4.00% to 12.50%
Administrative Expenses	0.90% of payroll allocated to both the employer and member based on the components of the total contribution rate (before expenses) for the employer and member.	0.90% of payroll allocated to both the employer and member based on the components of the total contribution rate (before expenses) for the employer and member.
Cost of living adjustments	2.50% (actual increases contingent upon CPI increases with a 2.50% maximum)	2.50% (actual increases contingent upon CPI increases with a 2.50% maximum)
Other assumptions	Same as those used in the June 30, 2018 funding actuarial valuation	Same as those used in the June 30, 2017 funding actuarial valuation

<sup>(1)</sup> Includes inflation at 3.00% plus real across-the-board salary increase of 0.50% plus merit and promotional increases.

2123	156,779	0	0 *	0	11,366	168,146
2124	168,146					
2124	Discounted Value: 94 **					

\* Less than \$1 million, when rounded.

\*\* \$168,146 million when discounted with interest at the rate of 7.25% per annum has a value of \$94 million (or 2.37% of the Plan's Fiduciary Net Position) as of June 30, 2017.

## SECTION 2: GAS 67 Information for Kern County Employees' Retirement Association

---

### EXHIBIT 5 (continued)

#### Projection of Plan's Fiduciary Net Position for Use in Calculation of Discount Rate as of June 30, 2018 (\$ in millions)

---

##### Notes:

- (1) Amounts may not total exactly due to rounding.
  - (2) Amounts shown in the year beginning July 1, 2017 row are actual amounts, based on the financial statements provided by KCERA.
  - (3) Years 2028-2044, 2048-2064, 2068-2084, 2088-2104, and 2108-2122 have been omitted from this table.
  - (4) Column (a): Except for the "discounted value" shown for 2124, none of the projected beginning Plan's Fiduciary Net Position amounts shown have been adjusted for the time value of money.
  - (5) Column (b): Projected total contributions include employee and employer normal cost contributions based on closed group projections (based on covered active members as of June 30, 2017); plus employer contributions to the unfunded actuarial accrued liability; plus employer and employee contributions to fund each year's annual administrative expenses. Contributions are assumed to occur halfway through the year, on average.
  - (6) Column (c): Projected benefit payments have been determined in accordance with paragraph 39 of GASB Statement No. 67, and are based on the closed group of active, inactive vested, retired members, and beneficiaries as of June 30, 2017. The projected benefit payments reflect the cost of living increase assumption of 2.50% per annum and include projected benefits associated with the Supplemental Retiree Benefit Reserve. Benefit payments are assumed to occur halfway through the year, on average.
  - (7) Column (d): Projected administrative expenses are calculated as approximately 0.90% of the closed group payroll. Administrative expenses are assumed to occur halfway through the year, on average.
  - (8) Column (e): Projected investment earnings are based on the assumed investment rate of return of 7.25% per annum.
  - (9) As illustrated in this Exhibit, the Plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments for current Plan members. In other words, there is no projected "cross-over date" when projected benefits are not covered by projected assets. Therefore, the long-term expected rate of return on Plan investments of 7.25% per annum was applied to all periods of projected benefit payments to determine the Total Pension Liability as of June 30, 2018 shown earlier in this report, pursuant to Paragraph 44 of GASB Statement No. 67.
